The said Letters and Papers were read to the House in the Words following Viz^t

London April 3^d 1769

Sir

Letter
from the
Provincial
Agent

I received duely your favour of December 24th with the Address of your Commons House of Assembly to the King, I directly waited ^(sic) waited on Lord Hillsborough Secretary of State for American Affairs, and delivered it to him to be presented to his Majesty, which he assured me he would do immediately, and I understand he has transmitted the Answer to your Governor this is the present Channel of Communication chosen by his Lordship who seems to think Agents unnecessary (perhaps troublesome) and says all applications from the Colonies to Government here ought to be thro' the

hands of the Respective Governors, and thro' the same hands The Assemblies should receive the Answers, But I apprehend America, will in many Cases find this new Mode inconvenient and perhaps not readily come into it, As your Address was on Business of a Publick and very important kind, it was necessary it should be communicated to the Secretary of State and by him be laid before the King, I could not with propriety present it my Self as I might have done if it had been meerly an Address of Compliment.

The Resolutions and Address proposed by his Lordship and by the Duke of Bedford of which I send you a Copy passed both Houses and the King in his Answer to the address has promised to give the Orders they request of him, They did not pass without opposition in the Commons, several of our Friends spoke warmly against them, some of the arguments used you will see in a printed Speech, of which I send you a copy—

It was as well that you did not send Petitions to the Lords and Commons, they would not have been received if they Contained any Expressions denying the right of Parliament to tax us Pensilvania, and New York, are the only Provinces who have Petitioned Parliament, and their Petitions have been refused—

The Agents however, have done their utmost by Seperate Sollicitations to Obtain a Repeal of the Injurious Acts, but hitherto in vain And we are told, it is not to be expected this Sessions Hints are indeed given, that if every thing remains quiet in America, possibly, they may be repealed next Year and probably none of the like Kind will ever be made hereafter, but the Possibilities and Probabilities are not much relyd on by our Friends who think that if we bear without Complaining

another Year, it will be supposed that we may bear forever, and all thoughts of repealing will be dropt—

Certainly nothing can be of more Importance to the Welfare of the whole British Empire than what you recommend, a Restoration of that Harmony which heretofore subscribed ^(sic) between the Mother Country and its Colonies The Agents earnestly wish it and will endeavour it by all possible means consistent with the just rights and essential Privileges of their Constituents—

The Secretary at War, on occasion of continuing the Act for Quartering Troops in America talk'd of proposing a Clause for enabling the Officers in case of Necessity to quarter the Soldiers in private Houses, This alarmed us greatly as it would always be in the Power of the Military to create the Necessity by bringing more Troops to any Place they had a mind to distress, than the Publick Houses, or Barracks could accomodate We therefore opposed it so strongly that the Ministry disownd the Measure, and the Secretary was obliged to give it up, On the other Hand the Act is made rather more favourable than it was being declared not to extend to any Colony, that has or shall make such Provision by Acts of its own for Quartering the Troops as shall have received the Kings Assent, and even leaving the Mode open to be varied by an Agreement between the Magistrates and Officers, I inclose a Copy of the Act as it passed—

I send you also a Pamphlet which I think very well written in our Favour, and therefore have distributed many of them the author is yet unknown, Be pleased to present my best respects to your Assembly when you

have one, and assure them of my most faithful Services—

I am with great Regard

Sir

Your most Obed^t and most hum. Serv^t

P S. April 21. The Ships not being sailed, I have an opportunity of informing you, that, on Wednesday last, a Motion was mad ^(sic) in the House of Commons for repealing the Duty Acts, which was supported by Gen. Conway, Sir George Saville, and a number of our Friends, but not carried, An Act, however, will pass, for granting a Bounty, during 21 Years, on all raw Silk imported from the Colonies, of £25 for every £100 value during the first Seven Years £20 for D^o during the next Seven Years, and £15 for D^o during the last Seven Years, The Act permitting the exportation of Rice from Carolina and Georgia to more Southern Parts of America is also Continued—

London June 7th 1769

Sir

I did my self the Honour of writing you on the 3^d of the last Month, since when the Parliament has risen without repealing the Duties that have been so generally complained of but we are now assured by the Ministry that the Affairs of America have been lately Considered in Council; that it was the unanimous Opinion no new Acts, for the purpose of Raising a Revenue in America, should be made here, and that it was the full Intention of his Majesty's Servants to propose early in the ensuing Session, the Repeal of the Duties on Glass, Paper, and Painters Colours, Believing this News would be agreeable to our Friends I take the first opportunity of communi-

cating it to you and hope that nothing will happen in the mean time to change the favourable Sentiments towards us, which apparently begin to take place in the minds of his Majesty and his Ministers Possibly we may not at first obtain all we desire or all that ought to be granted us, but the giving Ground to us in some degree has a good Aspect and affords Room to hope, that gradually every Obstruction to that Cordial Amity, so necessary for the Welfare of the whole Empire will be removed Indeed I wish, as I think it would be best, that this could be done at once, But 'tis perhaps too much to expect, considering the Pride Natural to a great Nation, the Prejudices that have so universally prevailed here with Regard to the Point of Right, and the Resentment at our disputing it, I shall however remain here another Session, with a View to Join in Endeavours with other Agents to obtain a Repeal as General as possible of all American Revenue Acts, If I can at the same time render any Acceptable Service to your Province in Particular, tho' you should not think proper to Continue the appointment it will be a very great Pleasure to me, Be pleased to present my best Respects to the Assembly and Believe me to be very respectfully,

Virginia, 19th May 1769

Sir

The House of Burgesses met on the 8th Instant, on the 16th they took into their serious Consideration the State of this Colony, and in the Course of their Deliberations, being alarmed at the Distress in which all America

is likely to be involved, came to several necessary Resolutions, Copies of which they have given me particular Directions to transmit without Delay to the Speakers of the Several Houses of Assembly on this Continent, and to request their Concurrence therein—

In Obedience to their Order, I now, Sir, Enclose you a Copy of those Resolutions, and am persuaded the Importance of the Subject will be Sufficient to engage the immediate attention of your Respectable House, and the Circumstances of America, evince the Propriety of their Conduct—

His Excellency the Governor thought fit on the 17th to dissolve the Assembly, However, discouraging this Reprehension may be, yet we hope that our loyalty, and affection to His Majesty, our regard to the true Interests of our Mother Country, and our Inclinations, to terminate this unhappy dispute, will be made manifest, and will in the end dispose our Gracious Sovereign to interpose in our favour, and to procure for his Injured People the Redress they most humbly ask for—

Report of the
Committee in
the House of
Burgesses
Virginia

M^r Blair reported from the Committee of the whole House to whom it was referred to consider of the present State of the Colony that they had come to several Resolutions, which he read in his place and afterwards delivered in at the Clerks Table where the same were Read, and are as followeth, Viz^t

RESOLVED, that That it is the Opinion of this Com-

mittee, that the sole right of imposing Taxes on the Inhabitants of this his Majesty's Colony and Dominion of Virginia is now, and ever hath been, legally and constitutionally vested in the House of Burgesses lawfully convened, according to the antient and established practice, with the Consent of the Council, and of his Majesty the King of Great Britain, or his Governor for the time being—

RESOLVED, that That it is the Opinion of this Committee, that it is the undoubted Privilege of the Inhabitants of this Colony to Petition their Sovereign for Redress of Grievances, and that it is Lawful and expedient to procure the Concurrence of his Majesty's other Colonies in dutiful Addresses, praying the Royal Interposition in favour of the Violated Rights of America—

RESOLVED That it is the Opinion of this Committee, that all Trials for Treason, Misprison of Treason, or for any Felony, or Crime whatsoever committed and done in this his Majesty's said Colony and Dominion, by any Person, or Persons, residing therein, ought of Right be had and Conducted in and before his Majesty's Courts held within the said Colony according to the fixed and known Course of Proceeding and that the Seizing any Person or Persons residing in this Colony, suspected of any Crime whatsoever committed therein, and sending such Person or Persons to Places beyond the Sea to be tried, is highly derogatory of the Rights of British Subjects, as thereby the inestimable privilege of being tried by a Jury from the Vicinage as well as the Liberty of Summoning and producing Witnesses on such Trial, will be taken away from the Party accused—

RESOLVED That it is the Opinion of this Committee, that an humble, dutiful and loyal Address, be presented

to his Majesty, to assure him of our inviolate attachment to his Sacred Person and Government and to beseech his Royal Interposition, as the Father of all his People however remote from the Seat of his Empire, to quit the minds of his loyal Subjects of this Colony, and to avert from them those Dangers and Miseries which will ensue from the Seizing and carrying beyond Sea any Persons residing in America suspected of any Crime whatsoever, to be tried in any other Manner than by the ancient and long established Course of Proceeding—

The said Resolutions being severally read a Second time

RESOLVED, Nem: Con: That the House doth agree with the Committee in the said Resolutions—

ORDERED That the Speaker of this House do transmit, without delay to the Speaker of the Several Houses of Assembly on this Continent a Copy of the resolutions now agreed to by this House, requesting their Concurrence therein—

Two Messages from his Excellency the Governor by the Master in Chancery.

M^r Speaker and Gentlemen of the Assembly.

Message from
his Excellency
the Governor

I am to acquaint you that the Address of the House of Assembly to his Majesty on the Subject of the Revenue Laws, was by the Earl of Hillsborough presented to the King, and altho his Majesty Considered the Transmission of that Address, through any other Channel, than that of his Governor, as Irregular, and disrespectful, yet his Majesty has not weighed the Contents of it with the less attention, but finding that it does both in the Letter, and in the Spirit of it deny and draw into Question the Authority of Parliament to Enact Laws binding upon the Colonies in all Cases whatever, his Majesty has signified to me that he does on this Account disapprove of the said Address, being firmly resolved to support the Constitution as by Law Established, and not to Countenance any Claims inconsistent with its true Principles

Another Mes-
sage from his
Excy.

A Law having been passed in Great Britain, for further encouraging the Growth and Culture of Raw Silk, in his Majesty's Colonies, or Plantations in America, in which Considerable Premiums are allowed and given for Twenty one Years to Come, has occasioned a discontinuance of the Annual Bounty usually Granted to promote the Culture of that Commodity in this Province, and I am directed to propose and recommend to you to take such measures by Premiums, or otherwise, as may

induce the People to enter with Vigour upon so useful and profitable a Cultivation, If therefore you think the Circumstances of your Constituents will bear, or admit of giving any such encouragement, I doubt not but you will do it, But if you should be of Opinion, that the People cannot bear any Burthen of this Sort, and can point out to me any Method that I shall approve of, by which a moderate Sum of Money may be beneficially applied and of real use towards promoting the purposes aforesaid, I shall recommend it Home in the Strongest Terms and possibly it may be obtained

A Petition from Henry Preston Esq^r was presented to the House and read, Setting forth, that the Petitioner being unfortunately under the Censure of the House, is in Custody of the Messenger by Virtue of a Warrant under the hand and Seal of the Honourable Speaker, The Petitioner assures the House, that he is under the greatest anxiety for having in any manner Acted so as to deserve that Censure, and that, in whatever Light it may have appeared, he hopes the Act will be Considered to the inadvertency, and inexperience, in matters of the like nature, That the Petitioner is deeply Concerned for the Commission of such involuntary and unmeaning Error, That the Petitioner's real and unfeigned Regret, in being under such unhappy Circumstances, is greatly heightened, by some indiscreet and imprudent expressions being said to have been uttered by him since his Confinement relating to the House, the Veracity of the Information the Petitioner will not pretend to Call in doubt, but, at the same time, if any extenuation of such an improper Conduct (of which the Petitioner retains not the least remembrance) can be admitted, he hopes and begs, that the House, favourably Considering the Situation the Petitioner was then in, and the Anguish of Mind that must be the Natural Consequence of such a Situation, will please to admit it as some excuse for an Offence which he is very sincerely sorry for having Committed, and which he hopes the House will generally excuse, and overlook and that the Petitioner may be discharged from his present disagreeable Confinement

And the said Message was Read to the House in the Words following Viz^t

Mr Speaker and Gentlemen of the Assembly

a Message from
his Excy. the
Govr.

I now Send you the usual Estimate for the support of Government from the 29th September 1769 to the 29th September 1770, and must remind you to examine what Certificates are now out which by any Law or Laws are directed to be sunk, this seems to me to be very necessary not only to preserve the Publick Faith and Credit but that too great a Load of Debt may not come upon the Province at once and I have directed the Treasurer to give you every Information you may have occasion for from his Office.

The expence of attending the Settlement of Wrightsborough, there was an absolute necessity of incurring without your Concurrence, for those People had Removed here with their families on the Faith and Credit of a Provincial Law giving them Encouragement so to do, altho' before they came that Law was Repealed, and at the time of their application to have the Lands laid out and the Advantages promised by the Province there was no Assembly existing and on my Consulting the Gentlemen of the Council on the Occasion, we were all unanimous in Opinion they had a right to expect to be accommodated Agreeable to the Terms of the Repealed Law and therefore proceeded accordingly, Which Measure I can have no doubt but you will approve of and provide for the Expence attending the same the great progress already made by the People of this Settlement, gives a most pleasing Prospect of its Utility and Consequence to the Province, and if they are but protected from further thefts and Injuries from the Indians for a Year or two I think it will soon become a Considerable Settlement.

It is always with Reluctuance that I mention articles of Expence to you, but in my Station 'tis an indispensable Duty in me to lay every matter before you that I judge to be materially necessary for the Publick Good and

Safety and I must therefore recommend to your Consideration the present State of Fort George on Cockspur Island and for your better Information I send you Captain Powell's Report to me Relative thereto on the Twenty fifth of last Month, and on this Head shall only Observe that it is a Key to our Port, that it commands and inforces a due Observance of Several of our Laws and which would otherwise be as mere dead Letters, and without that Check or Security Epidemical, and Contagious diseases might be brought into our Town, and possibly spread into the Country unknown to us, till it might be too late to prevent the fatal Consequences of them.

I have heard it thrown out as tho' Tybee Island was a properer Place for a Fort, but I can by no means be of this Opinion, and am pretty certain, whoever views with due attention the different Situations, will conclude that there is none equal to Cockspur, or that can with Convenience, if at all, answer the Several purposes necessary, Probably a Fort might be more secure from the Surge and Effects of the Sea if it was somewhat further from the Point But if the Present Fort has a little Repair, and further Security, which I conceive cannot amount to any Great Sum, it may stand several Years, which will give both time and Ability to do something more Considerable and effectual, but even the Name of a Fort, tho' not of any great Strength, yet has its uses

To his Excellency James Wright Esquire Captain General and Governor in Chief of his Majesty's Province of Georgia Chancellor, and Vice Admiral of the Same

The Humble Address of the Commons House of Assembly

May it please your Excellency

and Read

We his Majesty's Dutiful and loyal Subjects the Commons of Georgia in General Assembly met beg leave to represent to your Excellency that having taken into our Serious Consideration the great Grievance which our Fellow Subjects the Freeholders of the Parishes of Saint David, Saint Patrick, Saint Thomas and Saint Mary, have laboured under ever since the Year of Our Lord One thousand Seven hundred and Sixty four from the want of Representatives in the Commons House of Assembly At which time his Majesty was most graciously pleased to annex to this Province that fertile and Valuable Tract of Country Ceded to him, by his Enemies, after a Glorious and successfull tho' expensive War and which hath since been Constituted and divided into the four above mentioned Parishes by an Act of the General Assembly of this Province, and Considering that those our Fellow Citizens are by the want of Such Representation deprived of that most Valuable and inestimable Privelege the Right of Consenting by their Representatives to all Laws by which either their Persons Property or Lives are to be affected,

And at the same time apprehending that his Majesty most undoubtedly intended that his Subjects inhabiting that part of his Dominion should be intitled to every Right Privilege and Immunity claimed or enjoyed by any of his other Subjects which is evident from his Royal Proclamation issued at that time and as his Majesty has always shewed the greatest generosity and Paternal affection in promoting the Settlement of his New Colonies.

We humbly Conceive that Nothing will more effectually contribute towards the Speedy improvement and Cultivation of those Lands than an equal Representation of the freeholders possessing the Same in the Commons House of Assembly by which we shall be enabled to receive information of what is necessary for accomplishing these good purposes and to pass Laws for making an Open Communication between them and the other parts of the Province and other necessary Services and also Constitutionally to impose Taxes upon them and grant to his Majesty such Aids as we from time to time shall think necessary towards the support of his Government.

We therefore request that your Excellency will be pleased to give orders for immediately issuing Writs of Election to chuse a Representative for each of the said Parishes which we apprehend may be Sufficient untill the Number of the Inhabitants shall be encreased, that thereby the above Grievances may be redressed.

RESOLVED That the said Address be presented to his Excellency the Governor by the whole House

ORDERED That M^r Grøeme and M^r Simpson do know his Excellency the Governor's Pleasure when he will be attended by this House and accordingly they withdrew, and being returned M^r Grøeme reported, that, pursuant to order, they had waited upon his Excellency to know his pleasure when he would be attended by the House, and

that he was pleased to say he should be ready to receive the House immediately—

Accordingly M^r Speaker with the whole House, went to his Excy. to attend his Excellency the Governor to present this Address and being returned M^r Speaker reported, that, he with the whole House, had attended his Excellency and presented their address, to which his Excellency was pleased to give the following Answer—

The Governors
Answer

It is certainly Just and right that every Parish or District in the Province should be represented, but I don't know whether it is in my power to comply with your request by issuing Writs to Elect Representatives for the four Parishes mentioned in your address, I have an Instruction by which I am directed not to add or diminish the number of the Assembly but I shall carefully examine my Instructions relative to this matter and, if I think myself at Liberty to issue Writs, I will do it, if otherwise, I will immediately state the matter Home, and desire to be further Instructed, and doubt not but I shall receive Orders to issue Writs accordingly.

Commissrs. for
Building a New
Light House at-
tend the House

The House being informed that the Commissioners for building a New Light House upon the Island of Tybee, attended at the Door they were called in (and according to order) presented at the Bar of the House the report of their proceedings which was read to the House in the Words following Viz^t

& make their
Report

The Commissioners appointed for building a New Light House on Tybee Island in pursuance of the Power vested in them by the Act of the General Assembly for that purpose passed have entered into an Agreement with John Mullryne Esquire, for building the same with Brick, within two Years from March last, for the sum of three thousand Pounds, which was the Lowest Estimate, and proposal that was made to them, in Consequence of their Advertisements for that purpose, One third

of which Sum to be advanced, On ^(sic) third to be paid when the building shall be raised forty feet, and the remaining third, when fully compleated, the same to be Erected upon such Spot, as the Commissioners should point out.

In Consequence of this Agreement a Board of Commissioners went down to Tybee and found a Spot which they imagined would answer the intended purpose, and which is upon the Land reserved for the use of a Light House, but the said Spot being, upon further Inspection thought too low, a full Board of Commissioners again went down on the twenty eighth past, and got M^r William Lyford, the Pilot, to accompany them, and having diligently Viewed, as well the Publick Land on the said Island, as such other parts which were thought Necessary and carefully set the Light House, the Bar, and the Fort of Cockspur are of Opinion, that the most proper and Eligible Spot to place the said Light House upon, is on a high and broad ridge of Land, heretofore the property of Peter Cadman and now of William Lyford, where it will appear Conspicuous both to the Northward and Southward.

The Commissioners must Observe, that no future Light House can be a leading Mark for the Bar, unless erected where the present one now stands, which is impracticable, at least would not, from the Encroachment of the Sea, answer any purpose, but they find that, by cutting down a few trees above the present Light House, the then Point of Tybee and the said Fort of Cockspur will be a very safe and apparent leading Mark—

All which the said Commissioners do report to this House pursuant to the Order by them made.

ORDERED That the report of the said Commissioners do lie upon the Table to be perused by the Members of this House.

Indian Bill read

The Ingrossed Bill, entitled an Act to prevent private persons from Incroaching upon or purchasing any of the Lands reserved for the Indians, or trading with them without a Licence, and also to repeal an Act, Intituled an Act to prevent Private Persons from purchasing Lands from the Indians, and for preventing Persons trading with them without Licence, was read a third time, upon the Question being put, that the Bill should pass, it passed in the Negative —

& Rejected

RESOLVED That the said Bill be Rejected.

ORDERED That the other Order of the day, for the Commissioners of the Town and Common to lay their proceedings and Accounts before the House be adjourned over till Thursday next.

Petition from
Several Passen-

by order of the
Governor

A Petition from several Passengers, whose names are thereunto subscribed, being just arrived in the Ship Hopewell, Thomas Ashe Master, from Belfast, in the North of Ireland, was delivered to the Clerk of this House by the Deputy Secretary, by direction of his Excellency the Governor in Council, and read to the House in the Words following, Viz^t—

GEORGIA

& Read

To his Excellency James Wright, Esquire, Captain General, and Governor in Chief, of his Majesty's Province of Georgia, and to the Honourable Council, and Commons House of Assembly, of the said Province convened in General Assembly.

The Petition of the Several Passengers just arrived in this Province, in the Ship Hopewell, Thomas Ashe, Master, from Belfast in the North of Ireland.

Most humbly sheweth.

That your Petitioners (chiefly Farmers) being of late years, greatly oppressed by the Rents exacted at which they are obliged to hold their Lands, as also by Taxes

and other Duties in Ireland, so that the most exerted Industry, scarcely affords a Comfortable subsistence to their Families, and having no hopes to obtain better Terms by renewal of their Leases when expired, thus distressedly Circumstanced, your Petitioners determined to seek relief, by moving themselves to some one of his Majesty's American Provinces, That your Petitioners, by Letters from M^r John Rae, Merchant in Georgia, to his Brother in Ireland, and being informed by Sundry Letters from their Friends who came to settle in this Province last year from Ireland in the Ship Prince George, Captain Beatty, that a Certain Portion of Land was laid out, and appropriated for the Purpose of settling a Township in this Province, that the Land was extremely good, and Capable of any Cultivation and their Friends further acquainting them, of the hospitable Reception they had met with from the Inhabitants in General, and the very generous Assistance afforded them by his Excellency the Governor and the General Assembly, The Consideration of such great Priveleges, and Advantages, were powerfull Inducements to their immediately resolving to leave their Native Country, to part with their little substance, and thereby enable themselves to come over and Settle in this flourishing Province hoping to entitle themselves to its Protection, Encouragement, and Assistance, and of being found in Return, to the utmost of their Ability equally useful to forward your generous Intentions, in the further settling and encreasing the Same, That although some of your Petitioners, are come over upon Redemption, yet the far greater part have paid their Passage, in the doing of which (many of them having large Families) they have much reduced their Substance, Your Petitioners therefore humbly Pray your Excellency, and Honours, that you will be pleased to take their Case, under your Serious Consideration, to grant that they may be partakers with their Fellow

Countrymen of the Lands yet ungranted, in the Township of Queensborough, according to their respective Families, be enabled to get up to their Lands and be put in Possession thereof, and to grant them such other Relief, as in your great Wisdom and generous Disposition, you shall judge Necessary to their Melancholy Circumstances— And

And your Petitioners as in Duty bound shall ever Pray—

Order in Council annexed to the said Petition

At a Council held on Tuesday the 12th December 1769

Present

His Excellency the Governor in Council

On reading the Petition on behalf of the several People
Order of Council thereon lately arrived from Ireland—

IT IS ORDERED That they give into the Clerk of the Council a list of their Names and respective Number in each Family and Attest the same before him that so the Necessary directions may be given to prepare Warrants for surveying Lands within the Limits of Queensborough Township, and with respect to the residue of the prayer of the said Petition, the same is referred to the Consideration of the Commons House of Assembly—

Petition from
part of the In-
habitants of St.
Johns Parish

A Petition from part of the Inhabitants of Saint John's Parish, whos names are thereunto subscribed, was presented to the House, and read Setting forth, That whereas they are informed the Inhabitants of Saint Andrews Parish, have petitioned the House for Redress of Grievances, by the Grant of a Middle Parish, in which to include a part of the Parish of Saint John's, and whereas the Inhabitants thereof, for a Considerable term, and Several, even fifteen Years past, have been laboriously employed in the Annual performance of the Publick Work in the same, and having so far accomplished it, that now themselves and Travellers may pass with some Conveniency, the Additional Work of a Middle Parish would certainly be esteemed a very great Grievance Yet as Saint Andrew's Parish is extensive, if extending the Boundary four or five Miles would redress them, they

have no Objection, otherwise they Conceive of that Parish, there may be made two as large as Saint Johns, The Petitioners therefore do humbly Sollicit, if the Wisdom of the House think meet, they may not be either included in a Middle Parish, or distinctly, from the Chief of the Inhabitants of Saint John's Parish, made Subject to any Additional Work, and the Petitioners will Pray, &c^a—

Petition from
the Inhabitants
of St. Andrews
Parish

A Petition from the North west Inhabitants of Saint Andrews's Parish, whose names are thereunto subscribed, was presented to the House, and read, Setting forth, That the Petitioners are an entire seperate Settlement in one remote corner of the Parish, without the least Connection with the other Settlers in the Parish, nor can there ever be any on account of the large space of Low Barren Lands that are betwixt them, and that they are Obligated, upon every small cause that comes under the Cognizance of Justices, and Freeholders to ride fifteen or Twenty Miles, with their Evidences, to have it determined, when they have Courts held regularly just by them, and that they find the Division of Publick Roads allotted them a very great hardship and no ways proportionate to the few Inhabitants in that District, as well as discouraging to others from settling among them, as they are Obligated to work from the Parish Line to Fort Barrington, which is upwards of Twenty five Miles of Low wet Pine Land, and often not a dry Spot to Camp at Nights, where their Negroes are obliged to Continue (upon Account of the Distance they have to go) the whole time, at the utmost Risk of their Lives, and, as an addition to their unhappy Circumstances their Commissioners

never fail exacting a full fortnight's work of them every Year, and generally at some very unseasonable time, Neither can they see any Probability of an end to their difficulties unless the House will take the substance of their Petition into its Consideration, and grant such Relief as it shall think best for them, either by annexing that Settlement to Saint John's or forming a Middle Parish, and the Petitioners will Pray, &c^a

RESOLVED That this House will take the said Petition under Consideration on Thursday the Eighteenth day of January next.

Then the Order of the day was read—

ORDERED That the same be adjourned over till Thursday the Eighteenth day of January next

GEORGIA At a Council held in the Council Chamber at Savannah on Monday the 27th November 1769

Present

His Excellency James Wright Esquire in Council

Message
from his
Excellency
the Governor
with a Resolu-
tion of Council

His Excellency laid before the Board an Address lately presented to him from the Commons House of Assembly requesting that his Excellency would be pleased to issue Writs for electing Four Members to sit in general Assembly for the four new Parishes, of Saint Thomas, Saint Patrick, Saint David, and Saint Mary in this Province, and his Excellency ordered to be read the Twelfth, Thirteenth, and Seventeenth, of his Majestys Instructions to him relative to the issuing Writs of Election for Members to serve in the General Assembly and also the Answer he returned to the said Address and desired the Opinion of the Board, on the Subject Matter thereof, Who on due Consideration had therein were unanimous in opinion, that his Excellency was no ways

authorized to issue such Writs of Election, as requested by the Commons House in their said Address, and that the Answer given by his Excellency was highly proper, And as the Lands containing those four Parishes were by his Majesty's Royal Proclamation added to this Province since the above Instructions to his Excellency were given, they recommended stating the Case fully to Government, and applying for further Instructions on that Head, as a very Necessary and desirable measure, altho from the present small number of Inhabitants in those Parishes, which is apparently owing to the best Lands being held by Absentees, under the Grants of the Province of South Carolina, such an Addition of Members as requested by the Commons House may not be immediately Necessary.

the worst Swamps in the Province, And few Negroes to perform that labour, nor indeed can they ever hope in their present Situation to make them even passable to the great discouragement of Settling this and all the Southern Parishes, The Petitioners therefore humbly pray that the House, would take the Case into Consideration and as the only effectual Remedy that can be devised grant them Relief, by erecting a new Parish out of this and the Parish of Saint Johns which is also a very extensive One, bounding the New Parish to the South by Sapelo River as far as a Creek leading out of the said River called Brora Creek, to Continue up the said Creek and Swamp at the head of it to the Publick Road, and from thence a North West Course, and to the North, as shall be most agreeable to the Inhabitants of the Parish of Saint John's, and the Petitioners will ever Pray &c^a

those Barbarous People chose to commence Hostilities having no place of Defence to assemble at in case of Need, the Petitioners do therefore beg Leave to offer the following expedient, to the Consideration of the House, that is to have Forts erected at Convenient Distances from each other and Scouts to ride along the Frontiers to prevent White People from encroaching on the Indians and also to prevent the Indians from carrying any Kind of Merchandize in amongst White People or staying unnecessarily in the Settlements, and when they find any Indians beyond their Boundaries to conduct them civilly into their Own Limits or if Occasion should require that the officer of the Scout may give them a travelling pass, As it is mostly by stroling Parties of Indians who are reckoned irregular by the Principal Part of the Indians themselves, that the Petitioners undergo the present great Hardships and they are of Opinion that the Headmen of the Indians might be easily convinced that this Scheme has a Tendency to maintain a good understanding with Indians in general for when White People catch Indians stealing or destroying their Effects they commonly chastise them with Corporal Punishment and Indignities which the Indians to get revenge misrepresent to their Chiefs in such a Manner as inflames their minds against White People, this or whatever other means the House may in its Wisdom Judge would most Contribute to secure the Petitioners Persons, and Properties, consistent with the Welfare of the Province in general and the Petitioners request that such measures may be taken by the House as speedily as Convenient for their Safety and preservation

That the want of a Short and safe communication

with the Province of South Carolina has long been looked upon as a very great Inconvenience, That a place belonging to the Memorialist, appears most likely to answer this very necessary purpose, That the Memorialist at his own expence has opened a passage and built a Bridge over a large Creek and established a Boat and every thing necessary and that before the rising of the Freshes, the Place (unto which he has given the name of Middlesex Island) has begun to be considerably resorted to, and it is imagined will soon become a general thorough fare, That the Memorialist apprehends the same might be made passable at all times, at a very moderate expence, whereby not only the Length of the Passage would be entirely reduced, but a great saving be made in the Rate of Ferriage to all Passengers, The Memorialist is exceeding desirous to fall upon any measures by which what he has begun may become of General use to the Publick and and ^(sic) Submits how far such an undertaking may be deserving of Publick Assistance.

A Message from his Excellency the Governor by the Master in Chancery was read to the House in the words following Viz^t

Mr Speaker and Gentlemen of the Assembly

Message from
his Excellency
the Governor

In answer to your Address of Yesterday's date, just now presented to me, I must confess I did not expect it, after what has already passed between us on this occasion, 'Tis true, that in my answer to your address of the 16th November last, on this Subject, I so far agreed with you, as to Declare, that I thought it Just and right that every Parish and District in the Province should be Represented, at the same time I told you, that I did not know whether it was in my Power to comply with your Request, but that I should carefully examine my Instructions and if I thought my self at Liberty to issue such Writs, I would do it, and if not, I would state the Matter Home, and did not doubt but I should receive Orders to Issue Writs accordingly, I then laid the matter fully and clearly before his Majesty's Council, whose Advice and Consent it is Necessary for me to have in the Summoning and Calling General Assemblies, and after reviewing their Opinion and Advice thereupon, I sent the

same to you as my further Answer to your said Address, and thought the matter would have rested there till I should receive his Majesty's directions therein— But I find that was not satisfactory to you, and, on a Supposition that the Gentlemen of the Council have not paid due attention to his Majesty's Royal Proclamation of the 3^d October 1763, you now again apply to me, and on Carefull examination of the said Proclamation, I conceive you have founded your present Address on a Mistake, for no direction is thereby given to any of his Majesty's American Governors relative to the Summoning and Calling of Assemblies, or causing the Settlers of the Lands ceded by the Treaty concluded at Paris on the 10th of February 1763, to be Represented, but to the Governors of the four new Provinces only, and by the words of the said Proclamation, that matter is clearly and expressly Confined to the four new Governments therein mentioned and described and can by no means be applied or Construed to extend to this Province, I cannot therefore agree with you in Opinion on this Point, but apprehend I am to Conduct myself therein agreeable to my Commission and Instructions from his Majesty and which I shall certainly do, But as you seem to think the Gentlemen of the Council have not duely attended to the Proclamation of October 1763 I shall again lay this matter before them and whatever further Determination or Opinion they may come to thereupon I will communicate to you.

**Memorial of
Saml. Savery**

A Memorial from Samuel Savery whose name is thereunto Subscribed was presented to the House and read Setting forth—

That the Memorialist was in the Year 1768 employed to inspect the Survey of the Boundary Line (so Called) between this Province and the Creek Indian Nation, That the Memorialist, last Session of the Assembly preferred an Account wherein he charged at the Rate of 25/- per diem for the said Service and as he thought very moderate from the Inconveniences, dangers and Fatigues, he labored under, which may be made manifest by those who were appointed as Commissioners to see this Work executed, That the Memorialist is allowed by every Individual who employs him in Surveying (which he apprehends the above work if not Similar to be nearly allied

to) the Sum of 21/- per diem, and as the late Assembly only allowed him at the Rate of 15/- per day, he hopes the House taking the matter into Serious Consideration and being Convinced that it is Customary for Private Persons to pay for Resurveying 21/- per day they will allow him after the same Rate, that the Memorialist in executing this Work for the Public lost two Horses which cost him £22.. 10/- Sterling which he begs leave to submit to the House if a Compensation should not be made him, as it has been done to other Persons that lost their Horses and were employed as Assistants in the same Service. That the Memorialist was the only Surveyor that would undertake the Service it being presumed there was great Danger attending it which he by experience found to be true that the Memorialist made no kind of agreement with the Persons that employed him but submitted himself entirely to the Justice of the House which he still confides in and hopes the House will do in the Premises as to their Wisdom shall seem meet &c^a

ORDERED That the said Memorial do lye upon the Table to be perused by the Members of the House.

Memorial from
Wm. Lyford
the Pilot for
the Port of
Savannah

A Memorial from William Lyford, Pilot for the Port of Savannah, whose name is thereunto subscribed, was presented to the House, and read setting forth, That the Memorialist, about four Years ago, being an Inhabitant of Charles Town and very well Settled there, was invited to come and settle in this Province, by the principal part of the Inhabitants of Savannah, especially by the most part of the Merchants, who made frequent applications to the Memorialist, declaring that as the Province stood in great need of a Good Pilot, to Navigate with Safety Ships and Vessels into and out of the Port of Savannah, and such a Person was difficult to be found, they did not doubt but that the Commons House of Assembly would grant Yearly a Sum equivalent to any extraordinary trouble and loss of time he would be at or sustain by the Distance he would be obliged to bring up Vessels from Cockspur to Savannah the difficulty of Navigation, and the extraordinary Number of skilfull hands he would of Course be obliged to keep employed in that Business, that the Memorialist entirely relying on the Province to grant him Yearly a Sum equivalent to the Trouble and expence he would be at by Carrying on the Pilotage business here (as the Number of Vessels coming into this Port are very uncertain, and perhaps not worth his While to Carry on the said business without

such Grant) did accordingly come to this Province with his family and brought with him Twelve Negroes and two Boats in order to Carry on the same with Spirit and Alacrity, which he has faithfully done ever since his Arrival here to this time though the Memorialist has met with several great and heavy Losses, that the Memorialist hath been credibly informed that the House has voted to the several Pilots for the ensuing Year no more than the Sum of £100 St^s notwithstanding a Yearly Sum of £150 hath hitherto been provided for the purposes aforesaid ever since his Arrival here, by which means the Memorialist will be entirely disabled to Carry on the said Business any longer, as from an accurate and the lowest Calculation made by several of the Merchants of this Town of the hire of the Memorialist's Negroes and Boats, entirely employed in the Pilotage Business, will amount to at least the sum of £516 Sterling, exclusive of the Risk of losing any of them and also exclusive of the Memorialist's own time and trouble entirely devoted to and Spent in the Carrying on the said Business, The Memorialist therefore prays the House to take the premises into serious Consideration, and Grant him such relief therein as to its Wisdom shall seem meet.

The House took the said Memorial into Consideration and

RESOLVED That this House will provide a Sufficient Sum, to be paid to the Several Pilots of this Province, after the rate of thirty Shillings for every Ship or Vessel (Coasters excepted) they shall board (or in case of bad weather meet) and bring in from without any Bar in this Province, upon proper proof thereof being made, and that the Sum of £100 already provided in the Tax Bill shall be Considered and go in aid of the encouragement intended by this Resolution.

provide £ 80 for

The said Address being Ingrossed was read to the House in the Words following, Viz^t

To his Excellency, James Wright, Esquire Captain General and Governor in Chief of his Majesty's Province of Georgia Chancellor and Vice Admiral of the Same

The Humble Address of the Commons House of Assembly.

May it please your Excellency—

We his Majesty's faithfull and loyal Subjects the Commons of Georgia in General Assembly met, return your Excellency our thanks for your Speech at the Opening of this Session

We are sorry you have nothing particular in charge from his Majesty, as we were in expectation of the Royal Assent to the Bill passed last Session for ordering and governing Slaves &c^a and that your Excellency would

have had some Instructions relative to the Bill for amending the Election Law of which you was pleased to say you would Consider.

We are truly Sensible that the Indian Affairs ought to be better regulated, and it is with Concern We acquaint your Excellency that in our opinion no Bill can be framed better to Answer the desired Effect than the Laws now in force unless the Neighbouring Colonies would Assent to Regulations similar in their Nature and Operation—

Your Excellency's Attention to the Commercial Interests of the Province deserves our sincere acknowledgements, and We are Convinced that the Navigation of the River, the distress of Seamen and other poor persons requires our Serious Consideration.

It gives us great Satisfaction that the Publick Faith and Credit of the Province is upon so good a footing and you may be assured Sir that we shall always endeavour to support and maintain it—

We are fully Convinced of the Utility and great Consequence of a Light House on Tybee Island and as ample provision has already been made for that important Service, We apprehend We have only to enquire into the Application of the Sum granted We shall also take into Consideration the Condition of Fort George on the Island of Cockspur and thank you Sir for your promise of Concurrence in any measure for the Publick Good

ORDERED That the House be called over on Monday next the 29th of this Instant October and that the Clerk in the mean time do write to the Absent Members requiring their Attendance—

M^r Speaker with the whole House went to attend his Excellency the Governor to present the Address of this House and being returned M^r Speaker reported that he with the whole House had attended his Excellency and presented their Address to which his Excellency was pleased to give the following Answer, Viz^t

M^r Speaker and Gentlemen of the Assembly—

In answer to your Address I must observe that its impossible his Majesty's approbation of our Negro Law could have been obtained and received by this time, for that Bill was not passed till the 10th of May, and the Copy of the several Laws not prepared and ready to transmit till the middle of July and the same reason holds with respect to the Election Bill—

And notwithstanding we seem to differ in opinion with respect to a Law relative to our Indian Affairs, yet I am not the less clear or satisfied that many things which I

could point out, might be much better regulated than they are at present by any Laws now in force, and this Independent of the Concurrence of any of the Neighbouring Colonies, however, I rest perfectly satisfied in having discharged my Duty to the People of this Province by recommending those matters to your Consideration—

I thank you Gentlemen for any acknowledgements you are pleased to make of my Deserts, and doubt not but if the Affairs I have recommended or such of them as you may approve of are Carried properly into execution, their good Effects will be soon felt—

Friday 26th October 1770

Two Messages from his Excellency the Governor was presented to the House by the Clerk to the Master in Chancery and read to the House in the words following Viz^t

M^r Speaker and Gentlemen

In consequence of your Message of yesterday desiring I will give orders for issuing Writs to Elect Representatives for the Parishes of Saint David, Saint Patrick, Saint Thomas and Saint Mary—

I am to acquaint you that the Conduct I observed with respect to this matter on your Several Addresses during the last Session of Assembly has been approved of by his Majesty, who considers the appointing what places shall

send Representatives to the Assembly as a matter which by the Form and principles of Government established for this Province, entirely depends upon his Royal Discretion, and which he will always be ready to exercise in such manner as shall be for the Interest and Welfare of the Province, when it shall appear to be necessary, either upon the Representation of the State of those Parishes, or on the Application of the Inhabitants there, to be indulged in the Privelege of Electing Representatives And I have represented this matter in such a light, that I doubt not I shall receive his Majesty's permission to Issue the Writs you desire, but untill I do, its not in my power to order them to be issued.

JAMES WRIGHT, 25th October 1770

M^r Speaker and Gentlemen of the Assembly—

I lately went down and viewed with some attention Fort George and the Light House and found that the very Severe Gale of Wind we had in June last together with the many hard Easterly Winds and high Tides, had then washed away the North East and South East Angles of the Fort Wall and Parapet, that was faced with Palmettoes and done considerable other Damage and am informed more has been done since. I also found the platforms all but some of the large Timbers or Keepers entirely decayed and fallen in and the whole work except the Capponiere in such a ruinous State as not to be worth Repairing—

The Light House seems to me to be much Stronger and in better order than it is generally supposed to be, and I am of Opinion with some further Security to the Foundation and other Repairs may Stand and Answer every purpose that any Light House or Beacon can do, for a great many Years, Perhaps from Ten to fifteen or

twenty Years and as a great deal of Tybee Island has been lately cleared by cutting down a few more straggling Trees it will be much more Conspicuous than ever and seen from many Points at Sea where it was not before—

I have had some Conversation with Colonel Mullryne on this Subject and have reason to believe that if it shall appear or be thought Beneficial to the Publick, he will consent to Cancel the Agreement made with him for building a New Light House—

The Utility indeed and Necessity of building a New Fort is so obvious, that its needless for me to offer any Reasons on that Head, and as the Expence, of it may be too much for the Inhabitants to bear just now, Therefore I think it proper to State the following Proposals for your Consideration Viz^t That a Committee should be appointed to go down and View both the Fort and the Light House that they should take with them Workmen who may be thought proper Judges and can be depended upon, to examine the state and Condition of the Light House, and if on the Report of the Committee it shall appear to the House as it does to me I would then propose that such part of the Sum of Two thousand pounds lately granted for building a New Light House as may appear sufficient, should be borrowed and appropriated to repair the old Light House, and that such other part of the said Sum of Two thousand pounds as may appear necessary and Sufficient should be borrowed and appropriated to the Building of a respectable and substantial Fort of Tabby on such part of Cockspur Island as may be judged most Convenient and effectual for the purposes intended by having a Fort there— And such Sums of Money to be replaced in such Proportions and within such a term of Years as may be thought proper and Convenient And that a Bill should be prepared reciting the whole Matter and for Borrowing and appropriating such

Sums as may be Necessary for the purposes aforesaid, with a Clause that the Money so borrowed shall be replaced within a Certain time by Annual Payments or Sums to be raised in the General Tax for the purpose of building a New Light House as heretofore intended when the same shall appear necessary, and which Sums or payments I apprehend need not commence till some years hence— By this Method I conceive the great and necessary Ends of a Light House and Fort will be effectually answered without the Inconvenience of raising any Tax which may be in the least felt by your Constituents—

A Message from his Excellency the Governor was presented to the House by the Clerk to the Master in Chancery and read in the following Words, Viz^t

M^r Speaker and Gentlemen of the Assembly

In the last Session of Assembly a very Salutary Law was Assented to for raising a Number of Watchmen for preserving good order in and about the Town of Savannah, this Watch or Guard was to consist of Twenty Seven Able Men and a Drummer The Drummer on the pay of Ten pounds per Annum, and the Men at Eight pounds agreeable to which Law and a Commission and Instructions issued by me, the said Number of Men were duely Inlisted but did not chuse to engage for a longer time than three Months, and at the end of the three Months the Captain reported to me, that the whole Num-

ber except Eight or Ten refused to engage for any longer Term unless their pay was increased and on my ordering him to endeavour to get other Men to Inlist he again reported, that he could not get any. Therefore in order to keep up this very necessary Service and duty till the meeting of the General Assembly, I advanced to each Man five Shillings by Way of Levy money, and ordered the Captain to tell 'em that I should recommend the Matter to your Consideration and that possibly their pay might be encreased, this I found Necessary to induce them to Inlist for three Months longer, and which time will expire on the 16th of next month. The Officers also complained that their pay was likewise too little.

JAMES WRIGHT

Savannah 30th October 1770

ORDERED That the said Message do lie upon the Table to be perused by the Members of the House.

The Bill to prevent the stealing of Horses and other Cattle, and for the more effectual Discovery and punishment of such Persons as shall maliciously and wickedly Kill, mark or brand the same, was read a Second time and ordered to be Committed.

A Petition from the Freeholders and Inhabitants of the Parish of Saint Peter and Parts adjacent in the Province of South Carolina whose names are thereunto subscribed was presented to the House and read Setting forth That being desirous of having the most Convenient Communication between that Province and Georgia That the Petitioners and their Neighbors some time ago applied to the Legislature of South Carolina and obtained an Act of Assembly for estsablishing a Ferry at the Two Sisters Bluff on Savannah River and for laying out and making a Publick Road about fifteen Miles in length to the said Ferry from the main Road leading from Coosa-

watchie to Purisburgh which new Road the Petitioners expect will be compleated the ensuing Fall so as to admit any Carriages. That the Proprietor of the said Ferry has been at expence in providing a proper Person and Boats to attend it and that the making the said Road has and will cost the Persons liable to work thereon great expence and labour, But that Hugh Kennedy Owner of the Land opposite to the Two Sisters Bluff has fenced in the said Land so as to prevent Travellers from making use of the Road thro' it which has been heretofore frequented whreby the good Intention of that Law is and without the Interposition of the Legislature of Georgia will be frustrated and the Petitioners and their Neighbours prevented from driving Stock and carrying Poultry to Savannah Market and trading with the said Town which they would do if the said Road was made Publick That the Two Sisters Bluff is the fittest place for a Ferry on the said River, for that the Swamp opposiite to Ebenezer is very low, four mile wide and impassable but at dry Seasons and tho' the place called *Tuckasee Kings bluff* is on the River yet it is very Steep and the Land opposite to it is low Swamp, subject to be overflowed with the least freshes, and at a great distance from the high Land. Whereas the Two Sisters Bluff is adjoining to high Land and Kennedys opposite to it is high River Swamp and the distance thro' his Land from the River to the Main Road leading from Augusta to Savannah is not more than three Quarters of a Mile, so that in every respect the Places above mentioned are the most proper for Ferries and the Roads above described for an Intercourse between the Two Provinces, which the Petitioners know to be Fact, being thoroughly acquainted with the Lands on both sides of the said River— The Petitioners therefore pray the House will be pleased to take the Premises into Consideration and pass a Law for making Publick the Road thro' the Land of Hugh Kennedy from Savan-

nah River to the main Road leading from Augusta to Savannah and for establishing a Ferry on the Land of the said Kennedy opposite to the Two Sisters Bluff and Vesting the same in him and the Petitioners will pray &c^a

JAMES WRIGHT, Savannah, 17th January 1771

this Province, and to enforce the execution of other Salutory Laws thereof, and having farther observed, by his Excellency's Message subsequent to his Speech, that he again urges and recommends to Consideration the expediency of having a Fort built on some Convenient Spot at the Entrance of this River; and having also seen, that, in consequence of his Excellency's Speech and Message, the Commons House of Assembly appointed a Committee to go down and fix upon a proper Spot of Ground for that purpose, which they having accordingly done, and reported the Same, and the Sum, which, in their Opinion, it will take to erect a respectable Fort thereon The Petitioners therefore, with the greatest Deference, beg leave to lay before them their Apprehensions and Fears lest the present fluctuating and uncertain State of Affairs in Europe should be productive of a War between Great Britain and some of the Maritime Powers, which Event may prove of very pernicious Consequences to the Trade and Navigation of this Province in its present defenceless condition, and perhaps to the Ruin of the Inhabitants of the principal Towns and the Neighbouring Plantations; and to humbly pray that such a Fort may be erected as may answer the Salutory purposes before mentioned and also be able to repel the Attempts of Privateers, and to secure the Navigation of the River from them and other Sea Powers: All which they hope, and even assure themselves (from the experience they have had of the Wisdom and public Spirit of every Branch of the Legislature) will be speedily done and the Memorialists will ever pray, &c^a—

Thursday, 24th January 1771

A Petition from John Joachim Zubly, Clerk, whose Name is thereunto subscribed, was presented to the House, and read setting forth, That at the Request and persuasion of several Persons, who complained of the expence and Difficulty of crossing Savannah River, the Petitioner, at a Place called Middlesex, where the Lands on both sides of the River are his Property, has opened a Road, and for about Eighteen months past, Kept a White Man, with a Boat and Hands, and a Number of People have passed in that time, at an expence of two thirds less than is paid by going to Purisburgh, as well as with greater Ease, and in much shorter time: That he is informed this House having last Sessions carefully examined the Matter, have in the present passed an Act to establish a Publick Ferry at the said place, and fixed a Rate of Six pence for a Man and Horse &c: The Petitioner, before the passing of this Act, persuaded that no other Spot can answer the purpose of the Publick equally well, has put himself to an expence little Short of Six hundred pounds, as by a Calculation annexed will fully appear, and he is of Opinion, that if those liable to make the said Road should, after the work he has done, work on it about Ten or Twelve days, it may be made as passable at all Times as any or most Ferries in this Province especially if the Commissioners should take the Benefit of a high Ridge of Land, which would make the Road but very little longer: The Petitioner begs leave to observe, that, altho' the rate of Six pence for some Years to Come will be hardly sufficient to defray the expences, much less make him any Satisfaction for those he has already been at he will chearfully engage to submit to the Regulations made in the said Act, if the House shall

see fit to make him any Consideration for the Expence he has already been at, and, besides giving up the labour done by his own Hands, he will esteem himself happy to be a large Contributor to a Work of such Publick Utility, in accepting a lesser Sum than he will make appear has by him been actually laid out: And as the People of Saint Matthèw's Parish, who, by the Act passed, are liable to make this Road, must have done all the work by him done, and built the Bridge by him already built, and withal are but weak in Slaves, have more Publick work than perhaps any other Parish in the Province and as a Communication with all the Northward Provinces may be considered rather as a Concern and Benefit of the whole Province, than of that single Parish: The Petitioner prays the House may take the whole into Consideration, &c^a—

Then the Title of the Estimate annexed to the said Petition being read—

ORDERED That the said Petition and Estimate do lie upon the Table to be perused by the Members of the House—

The Ingrossed Bill for regulating the Proceedings of the General Court was read a third time, and some Amendments were made to the Bill by the House—

That he was ordered by his Excellency to present to the House a Memorial from Cornelius M^cCarty whose Name is thereunto subscribed directed to his Excellency James Wright, Esquire, Captain General Governor and Commander in Chief in and over his Majesty's Province of Georgia the Members of the Honorable Council and Commons House of Assembly in General Assembly met And the said Memorial was received and read Setting

forth that the Memorialist being informed that the Sum of Three thousand pounds was some time since granted by an Act of the Assembly of this Province for building a New Light House upon Tybee Island and that a Bill is now under Consideration of the Commons House of Assembly for annulling and making Void the Same From an Opinion as the Memorialist humbly conceives that the present old Light House with Small repairs would Stand for many Years and the Publick be thereby freed from the expence of building a New One for a considerable time. The Memorialist therefore begs leave to represent to his Excellency and the Members of both the Honorable Houses of Assembly that about the Year 1759 the Commissioners appointed for keeping in Repair the Light House on Tybee Island did employ the Memorialist to repair the same which he did as fully as was in his power— That as by the many Gales of Wind which have since happened (as he presumes) the Additional Base which the Memorialist then gave to the House is now in a great Measure rendered useless especially to the North West, the Principal Timbers and Frame of the Original Building much decayed and the whole (as the Memorialist humbly Conceives from a very late Examination which he personally made of the same) in a ruinous Condition and incapable of Standing long— The Memorialist from these Considerations is therefore induced to lay before his Excellency and the Honorable Members of both Houses of Assembly the following proposals for their Consideration—

First— That he will at his own proper Cost Charge and expence build or cause to be built on such part of the Island of Tybee (as he may be directed by the Commissioners appointed for that purpose) a Light House of the same height, Form and Shape of the present Light House the Frame to be made of good and sufficient Pine

Timber placed on a Brick Foundation well secured underneath with Piles or Plank and shingled on the outside from bottom to top with good Cypress Shingles (which will best secure the Frame) for the Sum of Twelve hundred pounds Current money of Georgia

Secondly— He. will (tho' he thinks the undertaking may be attended with some Danger to the People employed in the work) undertake to repair the present Light House in the most effectual manner it can be done by splicing the Defective parts of the Frame or putting in new pieces where it may be done with safety putting on new Weather Boards where wanted Glasing or closing up the Windows to prevent Rain beating in repairing the Floors and Stair making the Roof Light and improving the Foundation in the fullest manner in his power for the Sum of Six hundred pounds Current money of Georgia, The Memorialist humbly submits the Premises to Consideration &c^a

ORDERED That the said Memorial do lie upon the Table to be perused by the Members of the House—

Motion was made that the House take under Consideration the necessity of erecting Places of Publick Worship in the different Parishes of this Province and for providing for Ministers to officiate therein, and also to provide for an Assistant for the Parish of Christ Church—

Commons house of assembly, Monday Feb^y 8th 1773

A petition from Several of the inhabitants of Saint John's Parish was presented to the House and read Settnig forth: That by the first Road Act passed in this Province, a road was ordered to be laid out, and made from Savannah to the Southern Boundary of this Province, to be carried on in such order as that every Southern parish or district should begin their part of the same where the adjoining northern parish ended, and which order was followed till interrupted by Saint Andrews Parish that the petitioners being desirous to accommodate their Neighbours in the best Manner had appointed a day and place to meet the commissioners of Saint Andrews to consult with them which way they chose the road should be laid out. That the commissioners of the said parish of Saint Andrew refused to meet, and that then the commissioners of Saint John's employed a Surveyor to run a traverse to the plantation of Captⁿ John M^eIntosh near Sapelo Bridge, by which means they were enabled to open an easier communication with Savannah, but that the inhabitants of Saint Andrews parish, refusing to Join the inhabitants of Saint John's obtained an Act of assembly compelling the inhabitants of the said parish of Saint John to carry their road to Hasting's line which was disapproved of by the Commissioners of

the said parish of Saint John, who adjudged it too difficult to be accomplished: the petitioners notwithstanding opened the road near the said line and threw up a very considerable part thereof: and that the inhabitants, of Saint Andrew by another application to the House of Assembly, had instead of getting one communication, as the law directed, obtained two, the one to the westward, and the other to the eastward: that the inhabitants of Saint Andrew's did again alledge that neither of these roads gave them a proper communication with Savannah, (though directed by themselves) and by another application, obtained a Middle road to be made by the petitioners: by which means the parish of Saint John is burthened in the Southern part of it with three publick roads for the use of the parish of Saint Andrew: and as the said parish of Saint Andrew do again petition that the commissioners may be compell'd to make more roads for them: the petitioners therefore humbly pray that no other burthen of the like Nature may be laid upon them for the use of the said inhabitants of the parish of Saint Andrew on whose account they have already suffered considerably, and the petitioners, as in duty bound, shall ever pray &c

Then the house proceed to consider the order of the day, and the above recited petition, and Motion being made, that a clause may be insterted in the road bill to oblige the inhabitants of the parishes of Saint Andrew and Saint John to make and keep in repair, by their Joint labour, that part of the road which remains unopened between the Two parishes on the lower road and is on the line dividing the above parishes, a debate arising thereon, the House divided and it passed in the Negative

A petition of Several of the freeholders and inhabitants of the parish of Saint Andrew was presented to the

House and read, Setting forth: That the petitioners Laboured under Several grievances from the large extent of their parish and the badness of the roads occasioned thereby: the petitioners therefore have thought proper to lay before the House a state of the Several roads in the said parish, and pray that the House will take under consideration the several grievances, particularly that part of the road from Sapelo to Darien, which they look upon to be of no benefit of their parish and the petitioners do request that it be entirely set aside, and another laid out from Sapelo to the meeting House in the said parish, and from thence to the river road near Cathead: the petitioners also pray that their parish may be laid out in different divisions and Districts and that line be run parallel with their parish line by the above mentioned Meeting House: and likewise that a line be run from the East side of the plantation of William Le Conte Esq^r to the Alatamaha, near M^r Lewis's Old place, agreeable to a plan presented to a former House, and the petitioners will ever pray &c

ORDERED that the said petition do lie upon the Table to be perused by the Members of the House

A petition from Peter Tondee and Joseph Dunlap was presented to the House and read, Setting forth: that in the Year 1765 the petitioners were employed, to build a Two Story brick House for the purpose of holding the General Courts of this province under the direction of the commissioners appointed to contract for the same, an estimate of which amounting to £450.. 19.. 6 was laid before the said commissioners that the petitioners having made now a calculation of the work done find themselves great losers thereby the calculation made by measurement amounting at the lowest rate to £595.. 0.. 0 in consequence of which there appears a loss much grater than

the petitioners can bear: the petitioners therefore pray the House will take the premises under consideration, and grant such farther Allowance as in their wisdom shall seem meet, and that one of the petitioners may be permitted to explain the matter to the House: the petitioners further set forth, that there is still a considerable ballance due them, exclusive of any additional allowance this House may please to grant, the want of which occasions the petitioners to labour under many hardships, a state of which the petitioners have annexed hereunto: the petitioners further observe, That a petition of the same import with the present was delivered to the commons House of Assembly the 17th December, 1770, but as that House was dissolved there could be no provision made for the petitioners: they therefore pray the House will take the whole under consideration, and the petitioners, as in duty bound, will ever pray &c

ORDERED that the said petition do lie on the Table to be perused by the Members of the House

a message from the upper House by their Clerk: that the upper House had agreed to the Ordinance for re-appointing Benjamin Franklin, Esq^r agent to Solicit the affairs of this Province in Great Britain with an amendment; and that they have also agreed to the bill, entitled an act to prevent the Mischiefs arising from the practice of hunting with fire, and killing Deer by Night, with several Amendments, to which amendments they desire the concurrence of this House

other purpose than drawing insupportable hardships upon them, and as there is more convenient places where ferries might be established they humbly conceive the best should be chosen: the petitioners therefore confide in the wisdom and clemency of the House, and flatter themselves that the House will so Order matters as to give them reason to pray &c

A message from his Honor the president by the Clerk of the Council:

M^r Speaker and Gentlemen of the assembly

In the month of April last, one Joseph Prine, a notorious Horse Stealer, broke out of the Goal in Savannah, and, as I understood he had threatened the lives of many Gentlemen of consequence in this Province, I laid the matter before his Majesty's Council, who advised me to issue a proclamation, offering a Reward of £50.. 0.. 0.. to any person who should Apprehend and deliver him into the said Goal in hopes thereby to avoid the evils apprehended from his being at Large, Yesterday the said Joseph Prine was brought from Carolina and is now in

Goal, but as I have no fund from whence to take the sum mentioned in the proclamation, all I have been able to do has been to get the Treasurer to advance the same to the persons who apprehended him, and I doubt not but you will provide for his reimbursment, at the same time I am under an indispensable necessity of once more reminding you of the present insecure state of the Goal, which is such that I am apprehensive the felons now confined in it will avail themselves of it, and evade Justice, especially since one, who has already, escaped twice therefrom, is now with them, and I think the only method at present to prevent such an escape will be to have a Guard at the Goal, which I recommend to you to consider of

JAMES HABERSHAM

Since my message to you of this day concerning Joseph Prine, and the insufficiency of the common Goal, I am informed by the Provost Marshal that John M^c-Luer, a carpenter, who he employed to lay a new floor and make some other repairs to the Goal, reported to him, that the whole building is so rotten and defective that he dare not venter to lay a new floor lest the weight of the same should bring down the prison, as all the lower part of the frame is totally rotten, and that he is of opinion it cannot stand many days, I therefore recommend this matter to your immediate and serious consideration, as the lives of the unhappy people now confined there are in imminent danger

A Petition from Hugh Kenedy was presented to the House and read setting forth that the Petitioner lately petitioned the House to grant him a Publick Ferry over Savannah River, and a road through his Land to the said Ferry opposite to the Established Ferry on the Carolina side that it appears that since the above mentioned petition Another was presented by Several of the Inhabitants of the parish aforesaid setting forth a supposed burthen on the Parishoners if compelled to make and repair the said Road, alledging that it is upwards of a Mile from the High Lands Belonging to the Petitioner, to the River, that the Petitioner caused the distance to be Measured and it appears to be, no more than fifty Chains, and that it is well known that the swamp on the said Land is passable when all others for several Miles up or down the river are not that there is another inconveniency in Establishing a Ferry elsewhere, if it be done for The Conveniency of Travellers and not for the benefit of an Individual, as there is an impossibility of swimming Cattle over the river for Ten Miles down or five Miles up the river (palachocala Excepted) from the said Ferry that the Petitioners against the Road and

Ferry applied for by the Petitioner are Strangers to the whole that it Seems inconsistent as well as Inconvenient to have two Ferries within one Mile of each other, as no other is allowed to be kept within Six Miles of the one Established on the Carolina Side and to which a Road is already Opened and which is Opposite the Petitioners Land that as the petitioners against the road above mentioned were of Opinion the Number of Hands applied for by the Petitioner were not sufficient to keep the same in repair the Petitioner is willing hereafter to do it at his Own expence if it is not thought proper to grant the said Road as Roads in General are, the petitioner is informed that a Neighbour of his reports that he has a Grant of a Ferry on his Land a little below the petitioner where Passengers may be put over to the Carolina Shore that he further says no other Individual is to put over any Traveller within Ten Miles up or down the river, and that the petitioner does not know what to think of the Ferry already Established on the Carolina side

said Line to the House then Sitting (a Copy of which is hereunto annexed) who provided Sixty five pounds for the Memorialist in the Tax Bill of that Year which was greatly inadequate to the Trouble Loss of time and health of the Memorialist; that sometime in the ensuing Year, the Memorialist again applied for the remainder of his Account And also to be paid for two Horses which were killed with fatigue on that Occasion, that Cost the Memorialist Twenty two pounds Ten Shillings Sterling but that House of Assembly being desolved nothing could be done in the application of the Memorialist that every other Man who lost horses in that Service was Paid the full Value of the same with which the Memorialist was not Acquainted when he made his first Application to the House but when he found that all others were reimbursed for their Losses he thought it but Justice that he should be also and therefore Applied as aforesaid that the usual Fee to Surveyors upon Common Occasions is Twenty one Shillings Sterling Per Day and Generally about Plantations where they may be comfortably Accommodated but this being a Work of excessive Labour, risque and fatigue the Memorialist charged Twenty five Shillings Per day which he apprehends in consideration of the Trouble—was but a Moderate Charge that the Memorialist had the fullest Assurances from the Commissioners that the House would make him ample Satisfaction for his Services and then he undertook the Arduous business upon the Strongest conviction that he should be generously rewarded, the Memorialist therefore humbly prays the House to take the premisses into consideration and grant him relief therein, by providing payment In the Tax Bill for such Sum as may be found upon due enquiry to be due to the Memorialist, and the Memorialist will ever pray &c

A Message from his Excellency the Governor by Thomas Moodie Esq^r in the room of the Clerk of the Council

M^r Speaker and Gentlemen of the Assembly

I herewith send you a Memorial of the Honorable Lewis Johnson Esquire Provost Marshal of this Province together with an affidavit of some Carpenters of reputation who have Viewed the publick Goal and also the protest of David Tubear Keeper of the Common Goal

From these several papers you will see The present most ruinous state of the Goal—This Gentlemen is a Matter which calls Loudly on us for relief it has been laid before former Assemblies but hath hitherto remained without redress I apprehend from an Idea that the provost Marshal or Sheriff is obliged to provide a prison or Goal at *his own Expence* but if you will take the Trouble to look into this point I believe you will find that all Goals or prisons are the *Kings* and Called *Common or publick Goals* and that they are built and repaired at the *Common Charge of the Country* that all commitments are to the *Common Goal* that the Sheriff or provost Marshal cannot (*if he wou'd*) build a Common Goal that in England Goals or prisons cannot be erected by any *less au-*

thority than an Act of Parliament and here I presume by an Act of the General Assembly

The Honour of the Province Suffers, Publick Justice is impeded and often prevented, and the laws of our Country are in a great measure rendered useless by the frequent breaches of the prison and Escapes of Delinquents, and not only these reasons but common Humanity calls upon us all to remedy and prevent in future the Calamitous circumstances attending the Want of a proper *publick Goal*

I must therefore in the strongest Manner recommend the provost Marshals Memorial to your most serious consideration, and hope you will give that relief which the nature of the case so Evidently requires

And now I am on this Subject, I must not omit to Inform you that one Prine a most Notorious offender now lies under sentence to be hanged on Wednesday the Twenty first Instant and that there is a very great probability of his making his Escape before that day unless a Guard is kept at the prison, and that there is no money to defray the Expence of this without you should think proper to provide for it

as Generally Neglected as it is important, but that amidst these their hopes and congratulations they may be allowed likewise to pour forth their Sorrows, that a fellow Creature a fellow Member of their Society groans, under the heavy Sentence of that Greivous Law which you have lately so publickly so Solemnly disapproved that he is Snached away at the dawn of Mercy he is wrecked within Sight of the Harbour, that shoud Prine Suffer and your Bill pass into a Law, he does not in the eye of reason, for the Crime, but for the time of its commission that he dies not for having Stolen a Mare, but for having Stolen her in 1772 instead of 1773 that they hope they shall not be Spectators of such a Scene that they intreat your application to his Majestys representative in behalf of this unhappy Man—That offices of Mercy are at all times amiable but on this Occasion they must in you be peculiarly becoming That they feel their Intreaties more than seconded by what you yourselves have so lately done—That though their Petition is Signed but by a very Trifling number of your Constituents they take upon them to assert that it conveys the Sentiments of the Majority for, to approve of the above mentioned Bill and to approve of the requested application must with every consistent person be one and the same feeling

A petition from several Masters and Owners of Vessels of the Town and Harbour of Savannah was presented to the House and Read Setting forth that the petitioners are of Opinion that the Laws and Regulations of this province which respect the Trade and Navigation of the said Town and harbour of Savannah are Insufficient for the purpose for which they were made as Several of the petitioners have already experienced by prosecutions under a Law of the province for doing that which Many persons had publickly done before, with impunity Whereby they are Subjected to Costs and damages which they think a very great hardship as they are not only Ignorant of any prohibition but have many Recent precedents for their Conduct and further they conceive that Laws which are of such frequent use, and are of such importance, shou'd be made as publick as possible and which if not soon Remedied the petitioners apprehend will be very detrimental to the Trade and Navigation of the province by discouraging persons from abroad Trading thereto that the Petitioners conceive nothing can contribute so much to the Welfare of the province as the extension of its Trade and Commerce and which they are persuaded cannot be Attained without encouraging a defusive Trade from abroad, but,

that while the Laws and Regulations are so exceedingly difficult for the Information and protection of the persons and property of those concerned or who may be concerned in such Trade it cannot be Expected that any such Extention can soon happen

That the petitioners believe it will not be difficult to have such Methods printed Out as will Tend to the Remedying the Grievance complained of and at the same time effectually promote the Commercial Interest of the province When the House doth think fit to enquire into a Matter of such importance as its Navigation Trade and Riches, That the petitioners are convinced the Laws already made for these purposes (though they conceive them to be deficient Have not been Generally enforced and put into execution, Whereby they have not only proved ineffectual to answer the ends proposed by them, but also, by such a Relaxation in the executive department of Justice destructive to the Navigation of the Port, and of consequence to the Trade and Commerce of the Province in consideration therefore of the premisses and of the particular prejudices hardships and Dangers which must too often inevitably Attend the Petitioners and the Merchants and Traders, Masters and Owners of Vessels who do or may Trade from the province the petitioners therefore pray the House to take the Laws already made for the Regulation of the Trade and Navigation of the Province into their deliberate and Judicious consideration and to make such amendments to them as may be deemed fit and that the same Shall afterwards be published in such publick Manner as the House shall think proper for the Information of Strangers and others and the petitioners will ever pray &c

Wednesday 18th Augst 1773

A Memorial from James Mossman Esquire was presented to the House and Read setting forth that the Memorialist a Candidate at the Election holden on the 12th and 13th Instant for a Member for the Town and district of Savannah begs leave to observe to the Honorable House that the several Voters at the said Election for Samuel Farley Esquire the other Candidate were Entitled by his Majestys Grants to no more than five and forty Acres of Land in the said district as your Memorialist has been informed and which the Memorialist apprehends to be Insufficient to entitle them to a Vote—the Election Law Expressly declaring the Necessary Qualification To be a *legal* possession of Fifty Acres of Land—

When the Memorialist considers that the Interest and Welfare of this province (in which he has a considerable property) depending upon an Equal Representation he cannot but be uneasy, when he sees men upon a presumption proceeding from a Grant of forty five Acres of Land declaring themselves to be legally possessed of Fifty the Memorialist (in Justice to himself and his Country) must further observe that possession does not constitute a Right That legality is Necessary for without possession can only be a Temporary Claim a Claim Subject to the will and pleasure of the Sovereign whose Gift and Grant Alone can constitute a Right the Memorialist further begs

leave to observe that several of the Voters for Samuel Farley Esquire as he has been Informed hold no other Lands within the district of Savannah Save and except Lands within a Certain Barony Claimed by Sir William Baker of the City of London Knite which the Memorialist apprehends cannot entitle them to a Vote, their possession not being that legal One meant by the Election Law, The Memorialist is the more convinced That it will be the sence of the House as he finds by an Act of the Legislature of this province entitled an Act for Limitations of Actions and for avoiding Suits in Law the Claim of the said Sir William Baker is preserved which plainly shews that it was the Sence of the whole Legislature at the time of passing of that Act—That the possession of the several persons claiming Land within that Barony was not *Legal* The Memorialist with the greatest deference further Mentions to the House that Several Freeholders of this Parish wou'd have Voted for him had the district Line been properly Ascertained and shoud those Gentlemens Lands that offered their Votes in favour of the Memorialist prove to be within the district he Makes not the least doubt but that the House will deem them Good and add them to the list of Voters entered on the Poll

The Memorialist therefor Expects *that Redress* in this particular case (a case of the Tenderest Nature) which common Justice must admit of, and Equity Entitle him to—and prays that the House will take the Poll under consideration as that alone can determine the Legal Representative for the Town and district of Savannah and that the Memorialist hopes that this House will not permit the said Samuel Farley Esq^r to sit as a member until the Matters above Represented are fully Enquired Into

The House having taken the said Memorial into consideration and it appearing to the House that a Scruteny had been demanded and not made

RESOLVED that the said Return is Imperfect

That there being no House of Assembly or Sessions since that time and there being no limited time mentioned in the said Resolution the Memorialist continued upon the faith of the Said Resolution and depending upon the Justice of any House that might thereafter be, to Act as a Pilot, and hath lately rendered to the House a true Account of all such Vessels, as under the said Resolution he apprehended himself Entitled to the Bounty upon, but to his great Surprise hath been Informed that the said Account is much curtailed Nay a sum equal to half thereof struck off

A Memorial from James Muter was presented to the House and read in the Words following Viz^t

GEORGIA To the Honorable William Young Esquire Speaker and to the rest of the Members of the Commons House of Assembly of the Province aforesaid in General Assembly met

The Memorial of James Muter

Humbly Sheweth

That your Memorialist is sole owner and proprietor of a plantation or piece of Land within the Village of Highgate near the Town of Savannah where he usually cuts Lumber for the Savannah Market that your Memorialist for the More Easy Conveyance of his said Lumber to Market has at a very considerable expence made a Road through part of his own Land to fall into the publick Road that leads from Acton to Town and has from time

to time at his own Expence kept the same in repair that some time past Thomas Netherclift of Savannah Merchant who is Settling a Rice plantation adjoining your Memorialist's Lands applied to the Commissioners of the said road to lay out and Establish the aforementioned road of your Memorialist as a private Road for him the said Thomas Netherclift that your Memorialist upon receiving a Written Notice from the said Commissioners directing him to open the said road for the said Thomas Netherclift applied to them and laid his case before them who were unanimous in Opinion that a Committee of them should go and lay out a private path for the said Thomas Netherclift which they accordingly did soon after having brought a Surveyor with them for that purpose which said Road Runs thro Part of your Memorialist's Land that your Memorialist has been Informed that by a Clause of a Bill now before your House his road is Established as a private Road for the said Thomas Netherclift notwithstanding what the Commissioners have already done by which means the said Thomas Netherclift will have two private paths through your Memorialist's Land your Memorialist humbly begs leave to observe that he has been always led to believe that agreeable to the Spirit of the British Constitution no man can be deprived of his Freehold but by the Judgment of his Peers unless he commits some breach of the Law to forfeit it and that the Legislature itself cannot deprive him of his property without giving him an equivalent for it that in Great Britain the parliament never takes away the property to make publick Roads for other publick uses without giving the Individual a pecuniary consideration for it and that it is never done even then, unless for the benefit of the Community in General and upon this principal that the Good of a Single individual ought to yield to that of the publick, your Memorialist begs leave to observe that in the present case he will be deprived of

his Freehold against his consent without having done any Act to forfeit it and Will not have any Equivalent for it and that too, not for the Good of the publick in General but to serve the purpose or Caprice of a Single Individual who your Memorialist is Informed has given out that he will spend a Thousand pounds rather than not have the said Road established your Memorialist begs leave to observe that notwithstanding he deemed it a hard case for the Commissioners to take away part of his Lands as before is set forth yet he Acquiesced because the Law of the province seemed to give them an Authority so to do and he was unwilling to do any Act that had the appearance of flying in the face of the laws of his Country but should the present Law pass as it stands he will think his case peculiarly hard your Memorialist therefore under the particular Circumstances above set forth prays that he may be heard at the Bar of the House either by himself or Council against the said Clause of the Act and that the House will render him Such other relief as in their wisdom shall seem meet

And your Memorialist as in duty bound
will ever pray

Mr Speaker and Gentlemen of the Commons House of Assembly.

I have communicated to you every Information that I have received relative to the Murders lately committed by the Creek Indians on several of His Majesty's Subjects in this Province, and as things now appear circumstanced I have thought it proper that the Militia be drafted and do such Duty as may be most conducive to the protection and Safety of the Inhabitants. Also that Stockade Forts be erected where they may seem necessary and most usefull and have settled a plan of defence to be observed 'till we know with Certainty what has happened in the Indian Nation and whether the Traders are cut off or not, and how far the Nation in general are concerned in this Matter. And for which Purpose I have sent a Talk or Message to them, a Copy of which you will now receive, and also the Heads of the Plan for the protection of the Settlements. And as the building of Forts must be attended with an Expence probably more than the People themselves can well bear, and as I think the Militia who are on *actual Service* ought to have some Allowance towards their Support or to defray their Expences. I must desire you will consider of these Matters and let me know whether you think proper to make any Provision for the same, and what, And Expresses being now very necessary and frequent, some Provision should be made to defray that Expence. Also for a Supply of Bullets to be sent to the different Parts of the Province, Gun Powder there is sufficient for the present in the Magazine. And as you are fully acquainted with every Circumstance that has hitherto happened and with the Measures which in the present hurry and posture of Affairs I purpose to take I desire that if any thing further occurs to you you will communicate your Sentiments to me, and if Things grow more

serious I doubt not but you will act with a becoming Spirit and, to the utmost Abilities of the Province, Exert and contribute towards Chastising the Perfidy, intolerable Insolence and unprovoked Barbarities committed by those worst of Savages, the Creek Indians. And as the Act giving Power to restrain the Exportation of Corn is expired, may it not from the Consideration of the present Situation of Affairs be expedient to renew that Power.

To His Excellency Sir James Wright Baronet, Captain General, Governor and Commander in Chief of His Majestys Province of Georgia, Chancellor and Vice-Admiral of the same.

The Humble Address of the Commons House of Assembly.

May it please your Excellency

We His Majesty's dutifull and loyal Subjects the Commons of Georgia in General Assembly met return your Excellency our very cordial Thanks for the regard you have manifested in laying before us the several Informations you have received respecting the unprovoked Murders committed on many of His Majestys Subjects lately residing on the Frontier of this Province by some of those horrid Savages the Creek Indians.

We intirely approve of your prudent and necessary Precaution in drawing out and drafting the Militia for the general Defence, and think with Your Excellency it is indispensably necessary to be informed, as soon as possibly may be of the real Intentions of the Creek Nation, and

how far they may presume to support and vindicate the late barbarous Transactions of their perfidious Countrymen, and we still hope that the report and Apprehension of their having massacred the Traders residing amongst them are premature.

We agree with Your Excellency in the Propriety of immediately erecting at proper Places Stockade Forts, and apprehend the building of them to be the Duty of the People of the respective Parishes or Districts where they may be wanted, but we will afford them such reasonable Assistance therein as, added to their own Assiduity may enable them to complete the same.

We will chearfully make such Provision, as has been heretofore allowed to such part of the Militia as may be on actual Service, and will also provide a Fund for the Payment of Expresses and such other immediate Exigencies as may be absolutely necessary, fully persuaded of your Oeconomy in the judicious distribution thereof

We must repeat to Your Excellency our Thanks for that watchful Attention and Care which has been so conspicuous in your Conduct upon this Occasion, and we will not fail from time to time to communicate and submit to you any Manœuvres which may appear to us likely to redound to the general Good

Altho we cannot but hear of the Treachery and Cruelty of these Wretches with Concern, yet, it is with Concern justly tempered with that noble resentment which must ever inspire His Majesty's faithfull American Subjects when their Lives and Prosperity, or the sacred Rights of their beloved Sovereign are invaded by any Power whatever, and we assure your Excellency that we will on all Occasions act against these merciless Enemies to Society

with that undaunted Resolution and Fortitude which will ever distinguish the true Sons of Freedom and Subjects of a British King

We have only to add that we will deliberate on the necessity and expediency of giving a temporary Power to prevent occasionally, the Exportation of Provisions

And you may depend upon it, I shall not cease to give the utmost Attention towards preserving the Peace and Safety of this Province, and shall communicate to you every Information and Occurrence. And it gives me very great Satisfaction to find your House so spiritedly determined to do Justice to, and support the just Rights of our most Gracious Sovereign, also that the Lives and Property of His faithful Subjects here, and in which you will ever find me most heartily disposed to co-operate with you

To the King's most Excellent Majesty.

The Humble Address of the Commons House of Assembly of your Majesty's Province of Georgia.

Most gracious Sovereign

Permit your Majesty's most dutiful and loyal Subjects the Commons of Georgia in General Assembly met to return your Majesty our most grateful and humble thanks for that addition of Territory lately ceded to your Majesty by the Creek and Cherokee Indians and annexed as a Frontier to this Province.

The great extent of this acquisition, the richness of the Soil, the Salubrity of the Air and situation, the considerable number of Settlers it cannot fail to procure, and the evident advantages which must result from the addition of so formidable a Frontier, are all objects which respectively and unitedly contribute to raise in us the most ardent desire to see it happily peopled, and cultivated.

After the most solemn Cession of these Lands to your Majesty by the Indians, your faithful Subjects could have no apprehension that any persons desirous to settle them, under your Majesty's powerful and sacred protection, would be wantonly, and unprovokedly, attacked and Murdered by that inhuman and perfidious people, in open violation of the most solemn treaties, and in daring and insolent defiance of your Majesty's sacred Right, and Dignity.

Far as such Treachery must have been from our expectations, we have notwithstanding, lately experienced many very lamentable proofs of the baseness of these Barbarians, and have too much reason to fear the fre-

quent repetitions of such unspeakable, and even refined, acts of Cruelty as must in the highest degree alarm, and terrify, your Majesty's faithful Subjects, as well as endanger their Lives and property, unless effectually prevented by the speedy interposition of your Majesty's Arms in our favor.

Although your Majesty's Province of Georgia is at present in a flourishing and desirable state of prosperity, although every year brings with it a very considerable augmentation of Wealth and success, we are yet very far from being able to Act against so numerous and dangerous an Enemy as the Indians without your Majesty's gracious support, in these critical and alarming Circumstances, therefore, allow us humbly to look up to, and solicit your Majesty for such protection and Assistance as in your wisdom you may think sufficient to chastize the perfidy and insolence of these dangerous Enemies to your Majesty's Government of Georgia, on our parts, we crave leave to assure your Majesty that, we will chearfully, and resolutely contribute every means in the power of this infant Colony to further and promote such Operations as your Majesty may graciously be pleased to direct for our Security and Welfare.

Admiral of the same

The address of the Commons House of Assembly—

May it please your Excellency—

We his Majesty's dutiful and loyal Subjects the Commons of Georgia in General Assembly met, are truly sorry to observe from the information you have from time to time laid before us, that a war with the Creek Indians appears inevitable—

Circumstanced as this Province is at Present, We have thought it expedient to Address our most Gracious Sovereign to send a military force to protect us against the outrages of our faithless Neighbours—And have therefore to request that your Excellency will be pleased to cause the said Address to be laid before his Majesty by the earliest Opportunity—And should our most gracious Sovereign think fit to grant our request, your Excellency may rely on our making such provision for the Troops which may be sent to our assistance as has been usual upon the like occasions

From the long experience we have had of your Excellency's unwearied attention to promote the general good of this Province, we can have no doubt but you will use your utmost influence to obtain such force as you may think sufficient to establish peace and security amongst us, but as it will be some months before our

situation can be known at home we Cannot but wish that in the meantime you would apply to the Commander in Chief of his Majesty's Forces in America for some immediate assistance in order to strike a terror into the minds of the Indians, and prevent them from Committing further Acts of Cruelty on his Majesty's good Subjects

In the Commons House of Assembly the 10th day of
March 1774

Report of the Committee appointed to take into Consideration the several matters contain'd in the Lieut^t Gov-

ernors Speech at the Opening of the Session on the 1st Instant, And His Honors Message to this House of the 4th Ins^t with the papers accompanying the same, as agreed to by the House.—

That they have seriously consider'd the matters committed to them, carefully examined every paper laid before them, and procured every further intelligence they could from His Majesty's Superintendant of Indians Affairs, and think it by no means necessary at Present, that this Province should take any part in the Dispute between the Province of Georgia & the Creek Indians, especially, as when the Governor is now fully inform'd of the Grounds of the present Disturbances between them, of the Course the Creek Nation shall take in Consequence thereof, and of the Support the Southern Provinces shall receive from His Majesty's forces, said to be kept up for the Security and defence of his American Subjects; His Honor may make such requisition as he thinks proper, And this House will always pay that respect thereto, which is due from Loyal & affectionate Subjects—

For the protection of our own Frontiers, the Committee recommend, in Compliance with His Honors requisition, That a Bill be immediately brought in for raising and Supporting Three Companies of Rangers each Consisting of Seventy five Men (non Commission'd Officers included) under the Command of a Major Commandant (who shall have no Company) One Captain, One first and one Second Lieutenant, two Sergeants, two Corporals and one Drummer to each Company, to be Subject to the same Discipline and the like regulations as His Majestys Troops are Subject unto, And that the said Rangers be Station'd in the most fit and Proper places on the Frontier to prevent Incurtions of the Indians, to

quiet the apprehensions of the Inhabitants and thereby prevent their quitting their Settlements—

present him; accordingly they withdrew, and being returned, reported that His Excellency was pleased to say immediately.

M^r Robertson and M^r Jones were appointed a Committee to attend his Excellency with the Speaker Elect, and present him for His Excellency's approbation, who was pleased to approve of him.

And then M^r Speaker informed the House, he had desired his Excellency would be pleased to grant, that this House of Assembly may have freedom of Speech, as by Right and Custom they used to have, and all their just Privileges and Liberties allowed them; and that in any thing he should deliver in the name of the House, if he committed any Mistake, it may not be imputed to the House, but that he might resort again to them for Declaration of their true intent and meaning; And that as often as his Majesty's Service, or the good of the Province, shall require, he might by direction of the House, have free Access to his Excellency. To which his Excellency was pleased to reply, that he wou'd grant them every Right and Privilege they could justly claim, or that they used to have; that was in his Power to grant; and that whatever should be delivered in the name of the House, if any Mistake was in it, he should have free Liberty to resort again to the House, and correct and amend such Mistake; And that the Speaker should have free Access to his Person whenever the Public Business called for it; And that his Excellency would give him,

where the Good of the Province required it, every assistance and Advice in his Power— M^r Speaker further reported, that his Excellency was pleased to make an Affectionate Speech to both Houses of Assembly, of which, to prevent mistakes, he had obtained a Copy, and read the same to the House in the Words following.

Honorable Gentlemen,

M^r Speaker and Gentlemen of the Assembly—

Our meeting in General Assembly under the Authority and Protection of our most Gracious Sovereign, after an Interruption of five Years, gives me the greatest Pleasure, and I most sincerely congratulate You thereupon— Peace, Happiness True Liberty and the enjoyment of Property were long banished from this Land; and what did the Rulers of the People introduce instead thereof; War, Imprisonments, Proscriptions, Oppressions, Attainders and Confiscations. Such was the fate of your Friends and Relations, and for no other reason than that they endeavoured to discharge the Duty with Integrity, and to support the Good People of this Province, in Peace and the Enjoyment of their Rights, their Liberties and Properties, and to oppose that Rebellion, Tyranny, and Oppression, which were promoted here, Principally, by a few Individuals of little or no property, but whose Pride and Ambition prompted them to mislead and hurry the People into Rebellion, without any Cause whatever, but merely to aggrandize themselves, and that from Obscurity and Want, they might become Men of Power, Leaders and Governors, and accumulate Fortunes to themselves by Rapine from the General Wreck of the Property of Honest men—

During the late Wicked Usurpation, the Inhabitants of this Country experienced the most cruel Tyranny.

Their Commerce was annihilated. The Oppressed People wanted many of the Common Necessaries of Life, and their Arbitrary Leaders loaded the Country with a Debt, amounting to more than all the Property in the Province was worth, and the Interest thereupon to much more than our whole annual Income, in the time of our greatest Prosperity. Add to which the Yearly Expences of their Government.

What a Melancholy Prospect did this exhibit, especially when contrasted with that Peace and Affluence, which the Inhabitants in General enjoyed here, before the Rebellion broke out.

But, Gentlemen, I shall not dwell any longer on this gloomy Subject, and thanks be to God, the Scene is changed, His Majesty having been graciously pleased to rescue this Province, and his good Subjects here, from the cruel Tyranny and Oppression, which they were labouring under, and from the Jaws of Ruin and Destruction.

I trust we shall now very soon enjoy the Blessings of Peace and True Liberty, under just Laws, and his Majesty's Protection. The Advantages of Trade and Commerce with the Mother Country are well known. The Inhabitants will have a ready Market and Sale for their Produce of every kind. They will be plentifully supplied with the Necessaries and Comforts of Life. They will have Money of *Real* and not merely nominal Value: And they will soon again become a Happy People.

The Point of Taxing America is wholly given up by the King and Parliament, and only a Power reserved to impose such Duties, as may be expedient for the regulation of Commerce (which Power even the warmest Zealots for America never denied to Parliament) and the

Nett Produce of those duties, are in every instance to be applied to the use of the Province.

I am happy in having it in my Power to declare to you, that His Majesty, in order to ease his Loyal Subjects here, graciously intends to remit all Arrears of Quit Rents; and generously proposes, that all those which may become due hereafter, shall be appropriated to the Use of the Province. Also that all Fines and Forfeitures, which shall happen, arise or become due to his Majesty, shall likewise be applied in the same Manner.

These Concessions being Matters of special Grace and Favor of the Crown, deserve our warmest acknowledgements.

I apprehend it is intended in Convenient Time to Revise the Laws of Trade, and I have no kind of doubt, that all such Indulgences will be granted to America, as may not be inconsistent with the General Good of the whole Empire.

Therefore, Gentlemen, when you reflect, that we have been rescued from Ruin and Destruction by his Majesty's Arms. That from a scene of anarchy and Confusion, we are now under the Protection of Great Britain, and restored to the Enjoyment of True Liberty and our Prosperity; the inestimable advantages arising from Law and regular Government; the Emoluments of Trade and Commerce; and many other Benefits, which naturally result from our Connection with the Mother Country, and from the Reestablishment of Civil Government in this Province, and the Generous Concessions of the King and Parliament; it will Evidently appear, that Great Britain never meant to oppress or injure the Colonies, but that they should return to the mild, just and benign Government they formerly enjoyed.

The Consideration of these things, Gentlemen, must warm our Hearts and inspire us with the utmost Gratitude and Affection. And I doubt not but you will take such Steps, & pursue such measures in your Legislative Capacities, as will evince to Great Britain the True and Unfeigned Loyalty of His Majesty's faithfull Subjects in the Province of Georgia, and will shew Your abhorrence of Treason and Rebellion, and secure to Yourselves and Your Posterity the Blessings of Peace, and the enjoyment of True Liberty.

Many Things will occur to You as necessary to be done for the better settling the internal Police; & giving the Inhabitants some Aid and Relief with respect to the Destruction and Loss of their Title Deeds; and other Sufferings by the Rebellion. But here I must observe to You, that our Safety & Quiet have of late been much interrupted by a Set of the most profligate Plunderers that ever existed, and who have murdered several of the Inhabitants in Cold Blood, also some Negroes, & who have Committed Great Devastation, and carried off a great Number of Negroes. I have written to Sir Henry Clinton on this Subject, and flatter myself he will give us every Assistance in his Power, but as the Prevention of these Mischiefs in future is a Matter of the Greatest Consequence to the Province, I therefore recommend it as an Object worthy of your Attention.

In all or any of these matters, I shall be very ready to concur with You, and Give my best Assistance.

Gentlemen, I trust I need not recommend to You Unanimity and Dispatch; Points essentially necessary at all times; and especially at present; And when the Season of the Year is improper for a long Session, And therefore I doubt not but you will only go upon such

things as are most Material, and defer the rest till a more Convenient Opportunity.

JAMES WRIGHT

Savannah in Georgia, Council Chamber.

RESOLVED, nem. con. That an humble Address of Thanks, be presented to his Excellency the Governor for his Speech delivered to both Houses, at the Opening of the present Sessions. That we do with sincerity assure his Excellency That our present meeting after so long an Interruption, affords us the most heartfelt pleasure, and that we join his Excellency in Congratulations on this happy Event.

When we reflect on the many difficulties, which have been arbitrarily and wontonly imposed upon the Inhabitants of this Province, in consequence of the late cruel and unprovoked Rebellion, that we are impressed with Sentiments of Gratitude which we cannot sufficiently express to our most Gracious Sovereign, for his good intentions to restore us to his most ample Protection; at the same time we cannot but lament, that those good intentions have been impeded, contrary to our reasonable expectations.

That we receive with gratefull thanks the information of his Majesty's gracious designs to remit the arrears of Quit Rents, and to appropriate what may hereafter become due, together with other emoluments of the Crown, to the Use of this Province, and doubt not but they will be carried into full effect, from which many advantages must accrue to this Country.

The King and Parliament of Great Britain, having by Law relinquished the Claim of Taxation over America, ought to remove every discontent and doubt of the most

bigotted Zealots for American Independency, and establish confidence in the Breast of every Individual—

That we flatter ourselves his Excellency's Application to Sir Henry Clinton for assistance will meet with Success, which together with our own exertions will have the desired effect of putting a speedy stop to the Incursions of those lawless Banditti, who have made such frequent depredations, on the Inhabitants of this Country, and afford future Security to every part of this Province; That being once established we have no doubt but our Trade and Commerce will encrease, and that we shall enjoy the Blessings of true Liberty and Good Government.

The wicked and diabolical designs of the Leaders of Sedition and Rebellion are so notorious, that it is unnecessary for us to enlarge on the Subject at present.

That we chearfully join with his Excellency in turning from the dismal Prospect, and look forward to better times—

That his Excellency may rest assured we will to the utmost of our Power and Abilities, discharge the trust reposed in us, and by our Conduct evince to the World our Loyalty and Attachment to the British Constitution and Government—That we shall lose no time in taking under consideration the most material Concerns of Province; and from the long experience this Country has had of his Excellency's unwearied endeavours, to promote its true Interest, We are convinced we shall receive Your hearty Concurrence and Support—

ORDERED That a Committee be appointed to draw up an Address, to be presented to his Excellency, upon the said Resolution, and a Committee was appointed accordingly.

ORDERED That his Excellency's Speech be referred to the said Committee.

The Address of the Commons House of Assembly.

May it please Your Excellency.

We his Majesty's Dutifull and Loyal Subjects, the Commons House of Assembly, in General Assembly met, return Your Excellency our warmest thanks for your affectionate Speech, at the Opening of the present Session. We do with Sincerity assure Your Excellency that our present meeting, after so long an Interruption affords us the most heartfelt pleasure, and we do join Your Excellency in Congratulations on this happy event.

When we reflect on the many difficulties, that have been arbitrarily and wantonly imposed upon the Inhabitants of this Province, in consequence of the late cruel and unprovoked Rebellion, We are impressed with Sentiments of Gratitude, which we cannot sufficiently express to our most Gracious Sovereign, for his good intentions, to restore us to his most ample Protection; at the same time, we cannot but lament, that those good Intentions have been impeded contrary to our reasonable Expectations.

We receive with gratefull thanks, the information of his Majesty's gracious Designs to remit the Arrears of Quit Rents, and to appropriate what may hereafter become due, together with other emoluments of the Crown, to the Use of this Province; and doubt not but they will be carried into full effect, from which many advantages must accrue to this Country.

The King and Parliament of Great Britain having by

Law relinquished the Claim of Taxation over America, ought to remove every discontent and doubt of the most bigotted Zealots for American Independency; and establish Confidence in the Breast of every Individual.

We flatter ourselves that your Excellency's Application to Sir Henry Clinton for assistance, will meet with Success; which together with our own exertions, will have the desired effect, of putting a speedy stop to the Incursions of those lawless Banditti, who have made such frequent depredations on the Inhabitants of this Country, and afford future security to every part of this Province; That being once established, we have no doubt but our Trade and Commerce will encrease, and that we shall enjoy the Blessings of true Liberty and Good Government.

The wicked and diabolical designs of the Leaders of Sedition and Rebellion are so notorious that it is unnecessary for us to enlarge on the Subject at present, we cheerfully join with your Excellency in turning from the dismal prospect, and look forward to better times.

Your Excellency may rest assured we will to the utmost of our Power and Abilities, discharge the trust reposed in us, and by our conduct evince to the world our Loyalty and Attachment to the British Constitution and Government—

We shall lose no time in taking under Consideration the most material Concerns of the Province, and from the long experience this Country has had of your Excellency's unwearied endeavours to promote its true Interest, we are convinced we shall receive your hearty concurrence and support.

M^r Speaker laid before the House another letter he

had received from Gray Elliott Esq^r which was read to the House in the words following.

Hon^{ble} Gentlemen,

It is with the most unfeigned satisfaction that I congratulate you upon a restoration of that Harmony which the misfortunes of the times have so long and so unhappily interrupted; may it ever remain undisturbed. Most of you Gentlemen know that I acted as agent for Georgia, under the appointment of 1773 for two Years, and I flatter myself it appeared by my letters to the Committee of correspondence, that no one could more diligently, dispassionately & impartially discharge that Trust, than I did.

As I am sensible of the present situation of the Province, I should be unwilling to make any Application to the Legislature, that may be attended with an expence, but having been in some degree affected by the General Calamity I am really under the necessity of reminding You, that I never received any Salary for the time I acted: in my Ordinance the Salary was fixed at £100 tho' D^r Franklin was by the last appointment allowed £150— I have enclosed an Account of my disbursements. It is usual for the Agents to charge 10^s per Day, every time they attend at the Secretary's of State's Office, or any other public Business, but I have charged what I really disbursed— I must beg you will be pleased to settle that Account and Salary with M^r Tattnall. I shall be happy of any Opportunity of convincing You how much I interest myself in the Welfare of Georgia, and am very respectfully, Hon^{ble} Gentlemen,

Your most Obe^{nt} Humble Servant

GREY ELLIOTT

RESOLVED That the said Bill do pass.

ORDERED That M^r Jones do carry the same to the Upper House, and desire their concurrence thereto.

A Memorial of the Rev^d James Brown Officiating Minister for the Parish of Christ Church was presented to the House and read, setting forth, That the Memorialist having left the Province of Virginia, at the breaking out of the present disturbances thereby lost his Property, and prospects of preferment; after continuing above four Years in England, he was appointed Missionary for the Parish of S^t George's, in the said Province of Georgia, by the Society for the propagation of the Gospel in foreign parts, and in consequence thereof embarked for this Province, and arrived here on the 29th of March last.

That on the Memorialist's arrival, he was informed by his Excellency, Sir James Wright, that it would be impossible for him to repair immediately to the Parish of S^t George, it being then in the power of the Rebels; and being informed there was no Minister of the Church of England in this Place, the Memorialist proposed to his Excellency to do the Duty here, while he staid, of which proposal his Excellency approved, and in Consequence the Memorialist has ever since his arrival officiated as Minister of the said Parish of Christ Church, and that

not only in performing public Service regularly in Church every Sunday; but also in attending funerals, Baptizing Children, and doing every other part of Clerical duty.

That the Memorialist not being entitled to the temporalities of the living of the said Parish of Christ Church, has no regular Income nor Support, except a few occasional Surplice fees, and the Memorialist's dependance for a living is on his Profession.

The Memorialist therefore requests, that this Hon^{ble} House will be pleased to take his case into Consideration, and vote such a provision or allowance for his Support, as to them shall seem proper, and equal to the occasion for the time he has officiated, and may continue to officiate as Minister in the said Parish of Christ Church.

The House taking into consideration the said Memorial.

RESOLVED That this House is of opinion that the said James Brown, should receive from the Public of this Province, for the Services already by him performed, and for his continuance in the Duties of his Profession in the Parish of Christ Church, the Monthly allowance of Ten Guineas, and that this House will provide for the same, Also further Resolved that his Excellency the Governor be requested to advance such Monies from time to time on the Credit of this House, out of any Monies that may be in the Treasury of this Province.

Message from his Excellency by the Master in Chancery.

M^r Speaker and Gentlemen of the Commons House of Assembly.

I must recommend to your consideration the State of

our Paper Currency, particularly that issued under the Authority of the Loan Act, which has been confirmed by his Majesty.

The Sum originally issued was £7410. Sterling, a great deal of which, I presume is lost and destroyed; and what still remains in the possession of the Inhabitants, is in a great measure useless to them, and the Public; because many people on account of its having lost its currency, scruple to receive it. I trust therefore that you will deliberate on this Matter, and come to such Resolution thereon, as may give proper relief to the possessors of those Bills in such way as you may see fit.

JAMES WRIGHT—Savannah 26th June, 1780.

RESOLVED That the above Message be taken under consideration on Wednesday next.

Then the House adjourned till tomorrow morning ten O'Clock.

ORDERED That M^r Yonge and M^r Zubly do wait on

his Excellency the Governor, and acquaint him that the House is ready to proceed to business; who accordingly withdrew, and being returned M^r Zubly reported that they had waited on his Excellency according to order, and delivered their Message.

A Message from his Excellency the Governor—

M^r Speaker and Gentlemen of the Commons House of Assembly.

I am extremely sorry to find myself under the necessity of calling you together again so soon, but the Exegency of the Times requires it.

The late daring Attack on the English Troops at Augusta by a Number of Rebels from South Carolina, joined by others in the Cedar Lands, in which they have failed, shews clearly that the Spirit and Flame of Rebellion is not over, and that Vigorous measures are still necessary, to crush the Rebellion in the back parts of this Province, and that it is also proper we should be prepared against any wicked Attempts, which may be made here, or at Augusta hereafter.

And as some other Fortifications and Works are necessary to be raised and made, and as it has heretofore been found very difficult to collect (Voluntarily) a Sufficient Number of Negroes for that purpose, I must therefore recommend it to You to frame a Short Law, to compel all Persons within such a distance of this Town and Augusta, as you may judge convenient, forthwith to give in an Account of all their Male Slaves from Sixteen Years of Age to Sixty; and that they shall be obliged, when called upon by Proclamation or otherwise, to send immediately such a Proportion of their Negroes, as may be deemed necessary, with proper Tools, and for

such time as the said Works may be found to require their Labor, and to send an Overseer for every fifteen Negroes and a Driver for every Ten.

And you will consider whether all the Inhabitants in the Town should not be obliged to give in an Account of, and to send such Male Slaves, as they have in Town, within the Ages aforesaid, or pay for the same; and whether such Male Inhabitants in the Town, who have no hands liable to work as aforesaid should not be compelled to work themselves, or serve as Overseers.

And Whereas Horses, Carts or Teams may be wanted for removing or carrying Materials for the said Works—I must therefore submit it to your Consideration, whether ample Powers should not be vested somewhere to impress Horses, Carts and Oxen for that purpose, or whether a certain Number of Horses should be purchased for the Use of the Public.

And whereas during the time of the Siege of this Town by the French and Rebels, it was found that the Militia Law was defective, and that Several Persons liable and able to bear Arms, declined and found means to avoid the same, and that the Powers and Penalties given and declared by that Law, were inadequate to the Offences committed, I must therefore recommend it to you to revise the same, and to give such Additional Powers both as to fine and imprisonment, or Corporal Punishment, as may seem expedient.

And as by the said Law there are some directions and Powers given relative to embodying Negroes at particular times, and to a certain amount, it is therefore submitted whether further powers should not be given at this Juncture, for a limited time.

JAMES WRIGHT Savannah 27th Sep^r 1780.

RESOLVED That Richard Davis, the Clerk of the Committee appointed to inspect and enquire into the Number of Houses in the Town and Environs of Savannah, be allow'd the Sum of Five Guineas for such his Attendance.

A Memorial from Divers of the Inhabitants of the Town of Savannah was presented to the House and read setting forth.

That the Memorialists entirely confiding in the Wisdom and Patriotism of their Representatives the present members of this Honorable House; and fully convinced that our Grievances will on all Occasions become an Object of their immediate and particular Attention, beg leave to address them on this Occasion.

That we apprehend the Act of Assembly lately passed for laying a Tax on all Goods sold at Vendue and for licencing Auctioneers, has not answered the End proposed.

That the same manifestly tends to the discouragement of Trade and Prejudice of the Country, by deterring of Adventurers from coming amongst us, with the Nec-

saries of Life, and carrying off the Produce of the Province in Payment.

That we are of Opinion That at a Time when a new Channel of Trade has been lately opened with our neighbouring Colony, where every Restraint on Commerce is avoided, every Encouragement given, and no Duties, and moderate Port Charges demanded. That in place of passing such Acts; Every Method should be adopted to preserve and support as much Trade amongst us as possible.

That the present Trade of Georgia is so small, and the Necessity for prosecuting Measures for its Increase and Encouragement, appears to us so great; That We sincerely wish all Taxes and every other Restraint upon the same may at least be laid aside for the present.

They therefore pray this Honorable House will take these evils into Consideration, repeal the said Act and grant such other Relief, as may appear to them most expedient and effectual for the Good of their Country, and benefit of their Constituents.

ORDERED That the said Memorial do lie on the Table for the Perusal of the Members.

Tuesday December 19th 1780.

Peter Dean Esq^r elected and returned a Representative for the Parish of S^t Andrew, proved himself duly qualified to serve agreeable to an Act of the General Assembly,

in such case made and provided; and after taking the Necessary Oaths took his Seat accordingly.

A Letter from Joseph Fox Esq^r was presented to the House and read, setting forth That he had made application some time ago for leave to resign his Seat, which was not then granted on Account of the House not being sufficiently full; since which there have been several Members elected; That he now begs leave to renew his request, as he is just moving up the Country within a few Miles of Augusta, that it will be extremely inconvenient as well as injurious to his private Interest, to be obliged to continue in the House, hopes the Honorable House upon taking the reasons he gave into Consideration, will grant his Petition— That he should have attended personally to make his Application, but is too unwell to come to Town.

The House taking the said Letter into Consideration, it was unanimously Resolved That Leave be granted Joseph Fox Esq^r to resign his Seat.

Motion was made That an Address be presented to his Excellency the Governor, requesting he will be pleased to order a Writ of Election to be issued for a Representative for the Parish of S^t John, in the Room of Joseph Fox Esq^r who has the unanimous permission of the House to resign his Seat.

Motion was made that an Address be presented His Excellency the Governor, requesting he will be pleased to issue a Proclamation, Offering a Reward of one hundred Pounds for apprehending and convicting the Person or Persons concerned in setting fire to his Excellency's Barn, on the Night of the fourteenth Instant, and that this House will provide for the same.

The said Addresses being prepared— Ordered That M^r Jones and M^r M'Gillivray, do wait on his Excellency with the same— they accordingly withdrew and being returned M^r Jones Reported That they had, according to order, waited on his Excellency, who was pleased to say that he wou'd comply with the request of the House.

A Message from his Excellency the Governor by the Master in Chancery.

M^r Speaker and Gentlemen of the Commons House of Assembly.

I do hereby adjourn the Commons House of Assembly untill Monday the fifteenth Day of January next, then to meet for the Dispatch of Business; and it is accordingly adjourned to Monday the fifteenth Day of January next.

Given under my Hand at Savannah this Nineteenth Day of December 1781.

To His Excellency Sir James Wright Baronet Captain General and Governor in Chief in and over his Majesties Province of Georgia Chancellor and Vice Admiral of the same

The Address of the Commons House of Assembly

May it please Your Excellency

We His Majesties dutiful and loyal subjects, the Commons House of Assembly, in General Assembly met, impressed with the most lively sence of duty and affection towards His Majesties Person and Government,—consider it as our indispensible duty to lay before your Excellency, the Present unhappy and deplorable state of our Constituents in every Part of this once flourishing province

Since the loss of the Post at Augusta, the Rebels have been continually committing depredations and Murders upon His Majesties loyal subjects—All the Outposts being withdrawn, every part of the Province is laid open and exposed, to the wanton ravages of the Enemy, who are permitted to rove at large in our settlements, and have within these few days past, cruelly put to death many of our Constituents, for no other cause than their loyalty and attachment to Government—Altho we have every reason to believe, the force of the Rebels in this province, has not hitherto, nor does it at present, exceed 400 Men, and not more than half of them Continental Cavalry

It is with concern, We see our Town Militia obliged to do Garrison duty, when the regular troops are wholly in Savannah

The season for planting is now at hand, and at a time-

when the Husbandman should be tilling his ground, and planting his crop, His Majesties subjects have no place of security, outside the lines of Savannah—Their Negroes which were formerly a considerable part of their Riches, being confined to the Town, are become a heavy and almost insupportable burthen to them

Many respectable inhabitants are reduced to indigence and poverty, for want of sufficient protection and support to enable them to live at home, and cultivate their farms in security

The Rebels are daily consuming and driving off Cattle and other live stock—And notwithstanding the provident steps your Excellency has taken to provide for the poor and distressed Refugees, We have just reason to apprehend, That unless some speedy and effectual measures are adopted for regaining and protecting the Country some distance round the Capital (which from the situation of our Rivers, We should hope may be accomplished at very little hazard) Unless Sir. This is speedily done, We have every reason to dread, That Defection, Emigration and Famine will ensue

This Sir, is a meloncholy, and we are sorry to add, a true picture of the present situation of this Country—The Blood of our Constituents, calls loudly for satisfaction, And we trust there are none amongst us, but will chearfully co-operate with the Military, in the duties of the Field, in support of the British Constitution

We receive with peculiar pleasure, the Account your Excellency has been pleased to communicate to us, of His Majesties Gracious approbation of our Conduct, and Assurances of Protection and support—And altho we have the fullest confidence in the benevolent intentions of our Sovereign—We cannot but express our ardent wishes, to

see them more fully carried into execution—From the long experience We have had of your Excellencys unwearied attention to, and regard for this Province, and his Majesties good subjects in it, We are fully Persuaded, That, you will do every thing in your power to alleviate our present unhappy situation And your Excellency may at all times command, and rely on the best services of this House, both in their Legislative and private capacities to forward and promote his Majesties service to the utmost of their power

The present season of the year, is so critical, that We cannot but be peculiarly anxious on behalf of ourselves and Constituents, to know of your Excellency, what protection or security we may depend on in future, before it be too late to plant our Crops or move elsewhere, for without the cultivation of our Lands, This valuable Province, which might have been, and still may be made, exceedingly beneficial to His Majesties dominions, will greatly suffer for want of provisions and effectual support, and consequently must sink into inevitable ruin

M^r Speaker & Gent^l of the Commons House of Assembly

Your Address Certainly Contains every Just Representation of the Wretched Situation of Affairs in this Province & I See, & Feel With you, the Necessity of Some Immediate Steps being taken, or Otherwise the Truly distressing & Alarming Consequences, which you Mention, must Inevitably Ensue. These things I have

long been Aware of, & made every application I could, for Assistance, but hitherto in Vain, And Alas! I have not the Means of Relief in my Power. But you may rest assured, I Shall Consult his Majesty's Council, & do my Utmost to Promote your Wishes.

The Address of the Commons House of Assembly of Georgia

May it Please your Excellency

We His Majestys Dutiful and Loyal subjects, The Commons House of Assembly, in General Assembly met, Beg leave to Congratulate Your Excellency on Your safe Arrival at New York, and on Your Appointment to the Command of His Majestys Forces in America; at a Time when everything has the Appearance of an Approaching Peace with the Revolted Provinces; an Event which we Most ardently wish to see Accomplished, upon Terms Consistent with the Honor, Safety and Prosperity of the British Empire.

We, on behalf of Ourselves and Our Constituents, beg leave to lay before Your Excellency a brief state of our Situation; and to entreat Your Excellency's attention to the future Happiness of His Majestys good subjects in this Province.

From a very early Period, we have taken Arms in de-

fence of Our Happy Constitution, and shewn an unshaken Loyalty to the best of Kings; for which we have been Persecuted by our Enemies, deprived of our Possessions, and some Hundreds have been most Cruelly Murdered for no other cause, than their attachment to the British Government; the Garrisons and Out Posts (which used to give Protection to the Country) being either subdued, or withdrawn, great Numbers of very Respectable Inhabitants and others, have quitted their most Valuable Possessions, and are now doing Duty within our Lines, living on the common Rations of the Soldiers and undergoing every species of Hardship; rather than swerve from their Loyalty;—their Estates are Confiscated by the Rebels, and are now Advertized for Sale

It is for a People Sir! who come under those Descriptions (borne down, and almost Ruined by the Ravages of War) We have to intreat your earnest attention, *in Peace or War*.. And we trust at this Important Period, *that the Property and Interests*, of His Majestys faithful Subjects will not be neglected, nor our Peculiar sufferings and Loyalty forgot

We entertain the most flattering Prospects from Your Excellencys Appointment; And sincerely wish to see a Reconciliation take Place between America, and the Mother Country, upon Terms that are just, Liberal, and Generous.

To His Excellency The Hon^{ble} Alexander Leslie Esq
Lieut. General of His Majesty's Forces & Com-
manding in the Southern District of America.

The Address of His Excellency Sir James Wright
Bart Captain General & Governor in Chief of His
Majesty's Province of Georgia, and of The Up-
per & Commons House of Assembly of the s^d
Province—

May it Please Your Excellency

We His Majestys Most Dutiful & Loyal Subjects, feel
Ourselves at a loss for Language to express the Astonish-
ment We experience, at the Intelligence that has been re-
ceived, of an Intention to withdraw His Majestys Troops
from this Province, and East Florida

We can with the greatest Confidence assert that a great-
er proportion of the Inhabitants of Georgia have attached
themselves to the Royal Cause, Than in any other British
Colony in America, And that Numbers of them have
been inhumanly murdered, and others of them stript of
their property, and driven within the Lines of Savannah
on Account of their Zeal for the British Government.—At
a period when Admiral Rodney has gloriously triumph'd
over the French Fleet—when The Town of Savannah has
been put into a good posture of Defence at an immense ex-
pence to the Inhabitants;—When the Enemy is inconsider-
able in Number, and must, necessarily Suffer by Sickness,
at the unhealthy Post which they now Occupy—At Such
a Time, We little expected that the Town of Savannah
would have been evacuated, to the Utter Ruin of Many
Loyalists who have Suffer'd the greatest Hardships in

defending it, and are likely to be reduced to the Melancholy Alternative, either of leaving the Province, in a destitute Condition, to pine under Want in a Strange Country or else stay behind & fall into the hands of their inexorable enemies.

We apprehend that when Orders were given to evacuate this place—the News of Admiral Rodney's Victory had not been received, and should the Troops be now withdrawn when the Situation of Great Britain is so Much altered for the better—Administration will probably Lament the fatal Effects of so distressing a Measure.

Upon the whole, We Cannot but hope & flatter Ourselves, That upon this representation Your Excellency, will Order the Garrison of S^t Augustine to be removed to Savannah, by which means this Place will be effectually Secured from risques. And We further beg leave to Observe, that the possession of this Province, will be productive of the utmost benefit to the Garrison of Charles Town, New York & the West India Islands, if only protected till the Crops can be gathered in, There being now growing within a few Miles of the Lines, Rice Sufficient to produce upwards of Ten thousand Barrells & forty to fifty Thousand Bushells of Corn besides vast Quantities of Pease & potatoes; and Considerable Supplies of Lumber & Naval Stores, can be procured for the Use of His Majesty's Navy & the West India Islands.

To His Excellency The Honorable Alexander Leslie
Esquire Lieutenant General of His Majesty's Forces,
& commanding in the Southern District of America.

The Address of the Upper and Commons House of
Assembly of the Province of Georgia in General
Assembly met.

May it please Your Excellency

We his Majesty's most dutiful and loyal Subjects the
Upper and Commons House of Assembly in General As-
sembly met, feel

[Continues the same, word for word, as 53/114 as far as
the words: "distressing a measure." The last para-
graph is as follows:—]

But should the Evacuation of this Province unfortu-
nately take Place we flatter ourselves you will at all
Events keep Possession of East Florida, as an Asylum
for the Loyalists until they can make an Application to
his Excellency General Carleton to continue the Garrison
there; for should East Florida also be evacuated the Loy-
alists will have no place whither they may transport a
large Number of Negroes, and the People who may move
from hence to that Province, added to the Garrison al-
ready there, will be sufficient to defend S^t Augustine
against a numerous Enemy as none but Vessels of an
easy Draught of Water can enter that Harbour—We
would also observe, that there are several Nations of

Indians in the Neighbourhood of East Florida who might be made very usefull in the Defence of that Province but if it is given up the Indians will of Consequence Join the Enemy.
